

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of a mobile phone. On the left is the phone's chassis with a large white battery cover removed, revealing the internal battery and circuitry. To the right is the black plastic back cover. A black ruler with white markings is placed vertically on the left side of the components for scale.
EUT Housing and Board View 2	 A photograph showing the internal components of a mobile phone from a different angle. The chassis on the left has the battery cover removed. The black plastic back cover is on the right. A black ruler with white markings is placed vertically on the left side of the components for scale.

EUT Housing and Board View 3	 This photograph shows the back of the EUT housing and board assembly. The black plastic housing is positioned over the internal components, which include a large black battery, a camera module with two lenses, and various electronic components. A black ruler with white markings is placed horizontally across the top of the assembly, showing measurements in millimeters. The background is a blue textured surface.
EUT Housing and Board View 4	 This photograph shows the front of the EUT housing and board assembly. The black plastic housing is positioned over the internal components, which include a large black battery, a camera module, and various electronic components. A black ruler with white markings is placed horizontally across the top of the assembly, showing measurements in millimeters. The background is a blue textured surface.

Solder Board-Component View 1	 A photograph of a green printed circuit board (PCB) component, labeled 'Solder Board-Component View 1'. The component is positioned on a blue textured surface. A black ruler with white markings is placed horizontally below the component, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The component features various electronic components, including a SIM card slot, a micro-USB port, and several integrated circuits. A small white label with 'MO6992' is visible on the board.
Solder Board-Component View 2	 A photograph of the same green PCB component, labeled 'Solder Board-Component View 2'. The component is positioned on a blue textured surface. A black ruler with white markings is placed horizontally below the component, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The component features various electronic components, including a SIM card slot, a micro-USB port, and several integrated circuits. A small white label with 'MO6992' is visible on the board.
