

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of an EUT (End User Terminal) housing. The housing is open, revealing a black printed circuit board (PCB) with various electronic components, including a battery, a camera lens, and a microphone. The components are connected by wires. A ruler is placed horizontally below the housing for scale, showing measurements in millimeters.
Solder Board-Component View 1	 A close-up photograph of a solder board component. The board is black and populated with numerous surface-mount components, primarily LEDs, which are labeled with identifiers such as LED1 through LED48. A ruler is placed horizontally below the board for scale, showing measurements in millimeters.

Solder Board-Component View 2	 A photograph of a black printed circuit board (PCB) with a grid of 48 gold-plated solder pins arranged in 4 rows and 12 columns. The board is positioned next to a black L-shaped ruler with white millimeter markings. The PCB has the text "KT660LED48V01-20210906" printed on it. The background is a blue textured surface.
Solder Board-Component View 3	 A photograph of the reverse side of the PCB, showing various electronic components including integrated circuits, capacitors, and a large silver-colored heat sink. The board is positioned next to a black L-shaped ruler with white millimeter markings. The background is a blue textured surface.

Solder Board-Component View 4	 A photograph showing the solder side of a printed circuit board (PCB) component. The board is black and populated with various electronic components, including a large silver rectangular component in the center, a smaller silver component on the left, and several surface-mount components. The board is placed on a blue textured surface next to a black ruler with white markings. The ruler shows dimensions in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).
Solder Board-Component View 5	 A photograph showing the solder side of a printed circuit board (PCB) component. The board is black and populated with various electronic components, including a large silver rectangular component in the center, a smaller silver component on the left, and several surface-mount components. The board is placed on a blue textured surface next to a black ruler with white markings. The ruler shows dimensions in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).

Solder Board-Component View 6	 A photograph of a black printed circuit board (PCB) with various electronic components, including a large silver heat sink, several integrated circuits, and surface-mount components. The board is placed on a blue background with a black ruler for scale. The ruler shows dimensions in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).
Antenna View	 A photograph of the antenna assembly, which consists of a black rectangular base and a long, thin, black antenna element. The assembly is placed on a blue background with a black ruler for scale. The ruler shows dimensions in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). A red box highlights the antenna element, and a red line points to it from a label "WCDMA/LTE Ant" in a red box.
