POWER SYNC

LED LAMP WITH WIRELESS CHARGING

USER GUIDE

LED Flex Lamp with wireless charging

Get a bright LED lamp and wireless phone charger all in one convenient device with the PowerSync LED Lamp with Wireless Charging. Save desk space and enjoy three different light modes to fit your mood!

Package Contents:

- Flex Lamp with wireless charging base
- Micro-USB to USB power cable
- User Guide

Product Overview and Function

- Easy-to-use settings
- LED indicator
- Wirelessly charges smartphones and other compatible devices.

Getting Started

1. Connect one end of the Micro-USB power cable into the lamp and the other end into a USB power source.
2. The LED indicator will light blue for a couple of seconds and then turn red to signal standby mode.
3. To charge your phone, lay it down on the wireless charging base with the screen facing up. The indicator light will turn blue when charging a device.

a. Note: The charge pad is only compatible with wireless charging enabled devices.
4. To operate the lamp's light, tap the power button indicated on the lamp head. Each press will cycle through the lamp's different light modes:

a. First tap: Warm light

b. Second tap: Cool light

c. Third tap: 30% Warm light

d. Fourth tap: OFF

Wireless Charging

The wireless charger has foreign object detection system which detects any foreign object that may interfere with the charging. If a foreign object is detected, the LED will blink red and blue. Remove the foreign object to resume charging.

Precautions

- Keep device away from heaters, heat sources, and hot environments.
- Turn the power off before cleaning the device.
- Keep away from children.
- Improper use of this unit can result in potential electric shock.
- Keep away from water and humid environments.

Specifications

Power Input: 5V/2A
LED Power: 2W
Wireless Charging Output: 5W
Product Size: 6.3 * 3.3 * 13.7 in
Weight: 5.82 oz

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement.
