## Technical Specifications

Model	SBS50
Power Supply	Input:100–240 VAC 50/60 Hz; Output: 5.0 V  1.0 A
Operating Temperature	40–100°F (4.4–37.8°C)
Operating Relative Humidity	0–85% RH (non-condensing)
Alarm Volume	100 dB
App	X-Sense Home Security (both Android and iOS supported)
Wi-Fi Frequency	2.4 GHz (Incompatible with 5 GHz Wi-Fi network)
Operating Frequency	912.375 MHz (US)/868 MHz (EU)
Wi-Fi Transmission Range	164 ft (50 m)
Wireless Protocol	IEEE 802.11b/g/n

## Device Setup

### Download the X-Sense Home Security App

To download the **X-Sense Home Security** App, scan the QR code or search for “**X-Sense Home Security**” in the Apple App Store or Google Play Store. Sign up with a valid email address. If you already have an account, make sure the app is updated to the latest version.

***Note: Make sure your smartphone supports iOS 11 and higher, or Android 8.0 and higher.***

### Before connecting devices, make sure that:

1. You know your Wi-Fi network name and password.
2. You are connecting your base station and smoke alarms using a 2.4 GHz Wi-Fi network (incompatible with 5 GHz Wi-Fi network).

3. Make sure the Bluetooth on your phone is turned on.

**Note:** When the device is configured via Wi-Fi, make sure your mobile phone and devices are as close to the router as possible, which can speed up device configuration.

### Connect the Base Station to the Network

1. Connect the base station to a power source with the power adapter.
2. Tap “+” in the app, select “Base Stations”, select “Base Station(SBS50)” in the product list, and then you will see the “Scan QR Code”page. Scan the QR code on the bottom of the base station.
3. Enter a name for the base station. Select the home you created or create a new home for the base station, then select the room in which it is installed. If you create a new home, you will need to enter a name and select the country or region in which you live.
4. Press and hold the pair button of the base station for 5 seconds until the LED indicator flashes yellow rapidly, indicating that the base station is waiting to connect to the Wi-Fi.

Press and hold for 5 seconds

The LED indicator will flash yellow

5. Tap “Operation confirmed” and click “Next.” The page will show “Searching for nearby Bluetooth devices.”
6. Enter the correct Wi-Fi and password then click “Next” to add the device. You will hear “connecting to Wi-Fi.”
7. After successfully connected, you will hear “Wi-Fi connected” and the “Device added” page will appear. The LED indicator will stay solid blue and you can find the base station in the device list.

### LED Indicator

Status	LED Indicator
Powering On	The LED flashes red once.
Wi-Fi Connected Successfully	The LED remains solid blue.
Failed to Connect to the Wi-Fi	The LED remains solid yellow.
Wi-Fi Pairing Mode	The LED flashes yellow.
Alarm	The LED flashes red.

### Troubleshooting

<b>PROBLEM</b>	<b>CAUSE</b>	<b>SOLUTION</b>
The base station failed to connect to the network.	The entered Wi-Fi name and/or password are wrong.	Enter the correct Wi-Fi name and password.
	The phone Bluetooth is not turned on.	Turn on the phone's Bluetooth.
	The base station is not entering pairing mode.	Press and hold the Pair button on the base station for 5 seconds and its LED will flash yellow to enter the pairing mode.
The app push notification is delayed or there are no push alerts.	The app push notification permission is disabled.	Turn on the push notification permission on the phone.
	The base station is not within the network coverage of the router.	The distance between the base station and the router should be within 164 ft (50 m). Please ensure that the base station is always within the network coverage of the router.
	The communication between the device and base station is not stable or they are too far apart.	Reduce the obstacles between the device and base station. The maximum distance between the device and the base station in an open environment is 1,640 ft (500 m).
The alarm sound is low.	The volume level is set too low.	In the base station setting, comes to the sound settings to increase the alarm volume.
The app shows that the base station is offline.	The WiFi connection of the base station is disconnected.	Make sure that the network connection between the router and base station is normal.
	The base station is powered off.	Make sure the base station is powered on.

## FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

## **RF Exposure Statement**

This equipment complies with FCC/ISED RF radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20 centimeters between the radiator and your body.

## **Environmental Protection**

Waste electrical products should not be disposed of with household waste. Please recycle where facilities exist. Check with Local Authority or retailer for recycling advice.
