

EXHIBIT 4 - TEST SETUP PHOTOGRAPHS

Conducted Emission Test Setup	 A photograph showing a conducted emission test setup. On the left, a spectrum analyzer sits on a wooden bench. A red cable connects it to a power line interface unit (PLI) on the floor. To the right, a wooden table holds a small electronic device under test. The background shows a plain wall with a power outlet.
Radiation Emission View (Below 30MHz)	 A photograph of a radiation emission test setup. A white, shielded test chamber is mounted on a stand. In the foreground, a dark metal frame is visible. The background features a wall covered in white, square-shaped electromagnetic interference (EMI) absorbers. The floor is marked with yellow and black safety tape.
