1 Purpose and Basic Description

This document is prepared in support of the FCC and IC filing for BlueFin 2.4 GHz product.

It specifies the label of the products, including location and required markings:

- FCC ID
- IC Certification number
- Hardware Version Identification Number (HVIN)

2 Label drawing and location with FCC ID, IC Certification number and HVIN

The illustrations below show the location and contents of the product label. The label is implemented in the PCBA design of the product.
