

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of a mobile phone, specifically the back housing and the main board. The back housing is on the left, and the main board with the battery is on the right. A ruler is placed vertically on the left side of the components for scale. The battery is labeled "FPC.T0.25mm.RX50067P4".
EUT Housing and Board View 2	 A photograph showing the internal components of a mobile phone, specifically the front housing and the main board. The front housing is on the left, and the main board with the battery is on the right. A ruler is placed vertically on the left side of the components for scale. The battery is labeled "FPC.T0.25mm.RX50067P4".

Solder Board-Component View 1	 A photograph of a small, irregularly shaped electronic component, likely a solder mask or a small PCB, placed on a blue textured surface. The component is dark with some gold-colored pads and components. It is positioned next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component spanning approximately from 10 mm to 40 mm on the vertical scale and 10 mm to 80 mm on the horizontal scale.
Solder Board-Component View 2	 A photograph of the same electronic component from a different angle, showing its underside or a different side. The component is dark with some gold-colored pads and components. It is positioned next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component spanning approximately from 10 mm to 40 mm on the vertical scale and 10 mm to 80 mm on the horizontal scale.

Solder Board-Component View 3	 A photograph of a mobile phone's internal circuit board, specifically the solder side, showing various components like the camera, microphone, and connectors. The board is placed on a blue textured surface next to a black ruler with white markings for scale.
Solder Board-Component View 4	 A photograph of the same mobile phone's internal circuit board from a different angle, showing the battery area and other components. It is also placed on a blue textured surface next to a black ruler with white markings for scale.

Solder Board-Component View 5	 A photograph of a mobile phone motherboard, labeled 'Solder Board-Component View 5'. The board is black with various electronic components, including a large central chip, several smaller chips, capacitors, and connectors. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the board's width spanning approximately 100 mm and its height around 70 mm.
Solder Board-Component View 6	 A photograph of a mobile phone motherboard, labeled 'Solder Board-Component View 6'. This view shows the underside of the board, featuring a SIM card slot, various connectors, and electronic components. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the board's width spanning approximately 100 mm and its height around 70 mm.
