

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS**EUT Housing and Board
View 1****Solder
Board-Component View
1**

Solder Board-Component View 2	 A photograph of a green printed circuit board (PCB) with various electronic components, including integrated circuits, capacitors, and resistors. The board is positioned horizontally against a blue background. A black ruler with white markings is placed vertically to the left of the board, showing measurements in millimeters. The ruler has markings from 0 to 100 mm on the left side and 0 to 100 mm on the right side.
Solder Board-Component View 3	 A photograph of a blue cylindrical component, likely a battery or capacitor, with a multi-colored wire (red, yellow, black, and white) extending from one end. The component is positioned horizontally against a blue background. A black ruler with white markings is placed vertically to the left of the component, showing measurements in millimeters. The ruler has markings from 0 to 100 mm on the left side and 0 to 100 mm on the right side.

Solder Board-Component View 4	 A photograph showing a blue cylindrical component, likely a battery, with a multi-colored cable (red, yellow, black) attached. The component is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler is oriented vertically on the left and horizontally at the bottom.
Antenna View	 A photograph of a green printed circuit board (PCB) with various electronic components. A red rectangular box highlights a specific area on the left side of the board, which is identified by a red line pointing to a label "BT Antenna" in a white box. The PCB is placed on a blue textured surface next to a black ruler with white markings in millimeters, oriented vertically on the left and horizontally at the bottom.
