FCC ID: 2AC23-WC3XM2001

IC: 12290A-WC3XM2001

Model No.: WC3XM2001

The client software and associated drivers will not initiate any transmission on DFS frequencies without initiation by a master. This includes restriction on transmissions for beacons and support for ad-hoc peer-to-peer modes.

A channel/frequency plan for the device showing the channels that have active scanning or passive scanning. Active scanning is where the device can transmit a probe (beacon) and passive scanning is where the device can listen only without probes.

The active scanning in frequency band: 2412MHz - 2462MHz, 5150 MHz - 5250 MHz and 5725 MHz - 5850 MHz. The passive scanning in frequency band: 5260MHz to 5320MHz and 5500MHz to 5700MHz (For Canada not include 5600MHz to 5650MHz).
