

Label Location Justification Letter

Date: 31 January 2024

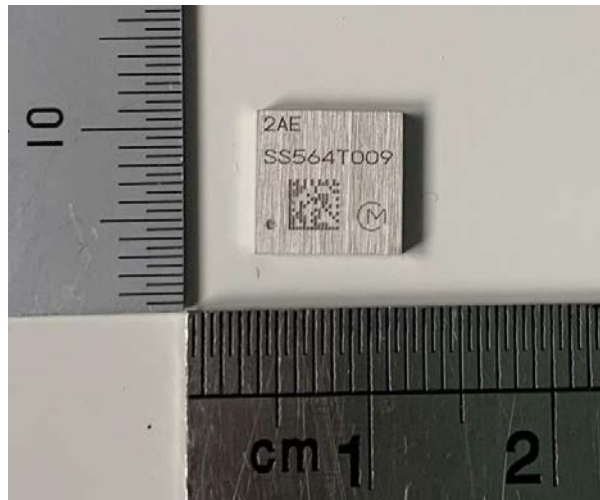

FCC ID: MCQ-CCMP1

IC: 1846A-CCMP1

Model (HVIN): LBEE5PK2AE

Since the module is too small to put the required FCC ID and ISED certification information with a minimum 4-point font size, this information will be placed in the user manual and packaging of the device.

The module size is 8.0*7.8mm and thus there is not enough space to put the required FCC ID and ISED certification number directly on the device.

Sincerely,

A handwritten signature in black ink, appearing to read "Dan Kobylarz".

Dan Kobylarz
