**Note**: If the device is capable of running Kaspersky software, at least one document must be provided from a third party showing that the Kaspersky software is not present on the device. This could include the results of a software scan, a screen capture of the device software register or other objective evidence that proves the Kaspersky software is not on the device. Please follow options listed on page 2.

<sup>1</sup> List of minimum requirements to implement covered list software – if the EUT does not have capability to install Kaspersky under the given configuration. Page 2 must also be handed in.

- Options to provide of compliance with covered list software requirements -

| Please | fill in as applicable and provide additional proof as req  | ues         | sted:  |        |     |
|--------|--|-------------|--------|--------|-----|
| 1      | Has the client signed an attestation stating the device is incapable of running the Kaspersky software (page 1)?   |             | YES*   | NO**   |     |
|        | * YES – no more proof needed – 2-5 do not apply > N/A ** NO – more proof must be provided (item 2-5 must be answered)  |             |        |        |     |
|        |  |             |        |        |     |
| 2      | Did the test lab or other 3rd party other than the certification body and applicant provide a list of software installed on the device and is there no evidence of Kaspersky software being installed? | $\boxtimes$ | YES*** | NO     | N/A |
|        | ***YES – please:<br>Insert File Name: Software list  |             |        |        |     |
