Pairing with 2 Devices Simultaneously</div>  </div> <div> <div>A. Getting Paired</div>  </div> <ol style="list-style-type: none"> Follow the pairing procedure as instructed in part 'Getting Paired' to pair the headset with the 1st Bluetooth device. Turn off the Bluetooth of your 1st device. The headset will enter pairing mode. Repeat the pairing procedure to pair the 2nd Bluetooth device. Turn on Bluetooth of your 1st device, click to reconnect to "A9" on the Bluetooth list. Now you can operate two devices through one headset. <p>Tip: Turn the headset off and then turn on again. The headset will automatically connect to the 2 devices at the same time.</p>	<div> <div>Charging the Device</div>  </div> <p>Notes!</p> <ul style="list-style-type: none"> ● Make sure charger and cable are fully dry before charging. ● Warning! Charging voltage is 4.2-5V. No more than 5V! Voltage over 5V will damage the battery. ● Charging input: 5V DC/above 500mA ● Use a certified TYPE-C charging cable and charger to prevent any damage. ● To care for the headset better, we do not recommend you charge it via car charger or power bank. ● Please turn off the headset when you are not using it to care for the headset better. ● Please charge the A9 at least once every 2 months when not in use. 	<div> <div>FCC Statement</div> <p>Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:</p> <ul style="list-style-type: none"> —Reorient or relocate the receiving antenna. —Increase the separation between the equipment and receiver. —Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. —Consult the dealer or an experienced radio/TV technician for help. <p>This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:</p> <ol style="list-style-type: none"> (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. <p>The device has evaluated to meet general RF exposure requirement. The device can be used in portable exposure without restriction.</p> </div>	<div> <div>WARRANTY</div> <p>Contact us via email or Facebook with your Amazon order number to active below benefits:</p> <ol style="list-style-type: none"> Lifetime Warranty Extension Support refunding or replacing at NO COST for defective products even if Amazon's one-month return window is closed. 24/7 technical support for any issues. </div> <div> <p>Email: service@vicimwann.com</p> <p>Facebook: @vicimwann</p> </div>
