1. CAP1800 Access Point

2. Ceiling Mount Bracket

3. T-Rail Mounting Kit & Screws

4. Quick Installation Guide

5. Ethernet Cable

6. Ceiling Mount Screw Template

I-2 System Requirements

- Existing cable/DSL modem & router
- Computer with web browser for access point configuration

I-3 Hardware Overview

- A** 12V DC IN LAN port with Power over Ethernet (PoE) IN
- B** 12V DC IN 12V DC port to connect the power adapter

I-4 LED Status

LED Color	LED Status	Description
Blue	On	The access point is on.
	Flashing Slowly	Upgrading firmware.
	Flashing Quickly	Resetting to factory defaults.
Amber	On	Starting up.
	Flashing	Error.
Off	Off	The access point is off.

I-5 Reset

If you experience problems with your access point, you can reset the device back to its factory settings. This resets all settings back to default.

1. Press and hold the reset button on the access point for at least 10 seconds then release the button.

You may need to use a pin or similar sharp object to push the reset button.

2. Wait for the access point to restart. The access point is ready for setup when the LED is **blue**.

II Quick Setup - AP Mode

Your access point can be up and running in just a few minutes. This quick installation section will help you setup your access point in its default AP mode and configure its basic settings.

II-1 Initial Setup

1. Connect the access point to a computer via Ethernet cable.
2. Connect the power adapter to the access point's 12V DC port and plug the power adapter into a power supply.

3. Please wait a moment for the access point to start up. The access point is ready when the LED is **blue**.
4. Set your computer's IP address to **192.168.2.x** where **x** is a number in the range **3 – 100**. If you are unsure how to do this, please refer to the user manual for more information.

Please ensure there are no other active network connections on your computer by disabling Wi-Fi and other Ethernet connections.

5. Enter the access point's default IP address **192.168.2.2** into the URL bar of a web browser.

6. You will be prompted for a username and password. Enter the default username “**admin**” and the default password “**1234**”.

A Windows-style dialog box titled "Connect to 192.168.2.2". It features a blue header bar with a question mark icon and a close button. Below the header is a blue banner with a yellow key icon. The main text area contains the message: "The server 192.168.2.2 at localhost requires a username and password." Below this, there are two input fields: "User name:" with a dropdown menu showing "admin" and a user icon, and "Password:" with a masked input field showing six dots. A checkbox labeled "Remember my password" is located below the password field. At the bottom right are "OK" and "Cancel" buttons.

7. “System Information” home screen will be shown:

The screenshot shows the EDIMAX Pro web interface. The top navigation bar includes "Home", "Logout", and a language dropdown set to "Global (English)". Below this is a secondary navigation bar with tabs: "Information", "Network Settings", "Wireless Settings", "Management", "Advanced", and "Operation Mode". The "Information" tab is active, and its sub-menu on the left includes "System Information", "Wireless Clients", "Wireless Monitor", "DHCP Clients", and "Log". The "System Information" page is displayed, featuring a "System" section with a table of device details and a "Wired LAN Port Settings" section with a table of port status.

System		
Model	[Icon]	
Product Name	AP801F02F1968A	
Uptime	0 day 00:41:03	
System Time	2012/01/01 00:40:45	
Boot from	Internal memory	
Firmware Version	1.8.1	
MAC Address	80:1F:02:F1:96:8A	
Management VLAN ID	1	
IP Address	192.168.2.2	<button>Refresh</button>
Default Gateway	---	
DNS	---	
DHCP Server	---	

Wired LAN Port Settings		
Wired LAN Port	Status	VLAN Mode/ID
LAN1	Connected (100 Mbps Full-Duplex)	Untagged Port / 1
LAN2	Disconnected (---)	Untagged Port / 1

II-2 Basic Settings

Basic settings of the access point are:

- **LAN IP Address; and**
- **2.4GHz & 5GHz SSID & Security; and**
- **Administrator Name & Password; and**
- **Time & Date**

It is recommended that these settings are configured before using the access point.

Whenever a new setting is applied to the access point, the webpage will reload, as shown below:

Configuration is complete. Reloading now...
Please wait for 19 seconds.

Instructions below will help you configure these settings:

Changing IP Address:

1. Go to **“Network Settings” > “LAN-side IP Address”** for the screen below:

LAN-side IP Address

LAN-side IP Address

IP Address Assignment	DHCP Client ▼	
IP Address	192.168.2.2	
Subnet Mask	255.255.255.0	
Default Gateway	From DHCP ▼	
Primary DNS Address	From DHCP ▼	0.0.0.0
Secondary DNS Address	From DHCP ▼	0.0.0.0

Apply

2. Enter the IP address settings you wish to use for your access point. You can use a dynamic (DHCP) or static IP address, depending on your network environment. Click “Apply” to save the changes and wait a few moments for the access point to reload.

When you change your access point’s IP address, you need to use the new IP address to access the browser based configuration interface instead of the default IP 192.168.2.2.

Changing SSID for 2.4GHz wireless network

1. Go to “Wireless Settings” > “2.4GHz 11bgn” > “Basic”.
2. Enter the new SSID for your 2.4GHz wireless network in the “SSID1” field and click “Apply”.

The screenshot shows the 'Wireless Settings' page with the 'Basic' tab selected. Under '2.4GHz Basic Settings', the 'Wireless' option is enabled, 'Band' is 11b/g/n, and 'Enable SSID number' is set to 1. The 'SSID1' field is highlighted with a red box. The 'Apply' button at the bottom right is also highlighted with a red box.

To utilize multiple 2.4GHz SSIDs, open the drop down menu labelled “Enable SSID number” and select how many SSIDs you require. Then enter a new SSID in the corresponding numbered fields below, before clicking “Apply”.

Enable SSID number	2 ▼		
SSID1		VLAN ID	1
SSID2		VLAN ID	1

Configuring Security Settings of 2.4GHz wireless network

1. Go to **“Wireless Settings” > “2.4GHz 11bgn” > “Security”**.
2. Select an **“Authentication Method”**, enter or select fields where appropriate, and click **“Apply”**.

The screenshot shows the 'Wireless Settings' tab selected in the top navigation bar. On the left sidebar, under '2.4GHz 11bgn', the 'Security' option is highlighted with a red box. The main content area is titled 'Security' and contains two sections: '2.4GHz Wireless Security Settings' and '2.4GHz Wireless Advanced Settings'. In the '2.4GHz Wireless Security Settings' section, the 'Authentication Method' dropdown is highlighted with a red box and set to 'No Authentication'. Below it, the 'Additional Authentication' dropdown is also highlighted with a red box and set to 'No additional authentication'. In the '2.4GHz Wireless Advanced Settings' section, the 'Smart Handover' is set to 'Disable' and the 'RSSI Threshold' is set to '-80 dB'. At the bottom right, the 'Apply' button is highlighted with a red box, next to a 'Cancel' button.

2.4GHz Wireless Security Settings	
SSID	[Dropdown menu]
Broadcast SSID	Enable ▼
Wireless Client Isolation	Disable ▼
802.11k	Disable ▼
Load Balancing	50 /50
Authentication Method	No Authentication ▼
Additional Authentication	No additional authentication ▼

2.4GHz Wireless Advanced Settings	
Smart Handover Settings	
Smart Handover	☐ Enable ☒ Disable
RSSI Threshold	-80 ▼ dB

Apply Cancel

If multiple SSIDs are used, specify which SSID to configure using the “SSID” drop down menu.

This close-up screenshot shows the '2.4GHz Wireless Security Settings' section. The 'SSID' dropdown menu is open, displaying a list of available SSIDs. The 'Broadcast SSID' is set to 'Enable', 'Wireless Client Isolation' is 'Disable', '802.11k' is 'Disable', and 'Load Balancing' is '50 /50'. The 'Authentication Method' is 'No Authentication' and 'Additional Authentication' is 'No additional authentication'.

2.4GHz Wireless Security Settings	
SSID	[Open dropdown menu showing SSID list]
Broadcast SSID	Enable
Wireless Client Isolation	Disable
802.11k	Disable
Load Balancing	50 /50
Authentication Method	No Authentication
Additional Authentication	No additional authentication

Changing SSID and Configuring Security Setting for 5GHz wireless network

Follow the steps outlined in “Changing SSID for 2.4GHz wireless network” and “Configuring Security Setting for 2.4GHz wireless network” but choose the 5GHz option instead.

Changing Admin Name and Password

1. Go to “**Management**” > “**Admin**” as shown below:

The screenshot displays a web-based management interface. At the top, a navigation bar includes tabs for 'Information', 'Network Settings', 'Wireless Settings', 'Management' (highlighted with a red box), 'Advanced', and 'Operation Mode'. On the left, a sidebar under the 'Management' heading lists options: 'Admin' (selected), 'Date and Time', 'Syslog Server', 'Ping Test', and 'I'm Here'. The main content area, titled 'Admin', features a section 'Account to Manage This Device'. This section contains two input fields: 'Administrator Name' with the value 'admin' and 'Administrator Password' with masked characters '*****'. To the right of the password field, there are two labels: '(4-32Characters)' and '(Confirm)'. An 'Apply' button is located at the bottom of the form.

2. Complete the “Administrator Name” and “Administrator Password” fields and click “Apply”.

Changing Date and Time

1. Go to “Management” > “Date and Time”.

The screenshot shows the web interface of a device with a top navigation bar containing 'Information', 'Network Settings', 'Wireless Settings', 'Management' (highlighted), 'Advanced', and 'Operation Mode'. On the left, a 'Management' sidebar lists 'Admin', 'Date and Time' (highlighted), 'Syslog Server', 'Ping Test', and 'I'm Here'. The main content area is titled 'Date and Time' and contains three sections: 'Date and Time Settings', 'NTP Time Server', and 'Time Zone'. The 'Date and Time Settings' section has fields for 'Local Time' with dropdowns for Year (2012), Month (Jan), Day (1), Hours (0), Minutes (00), and Seconds (00), and a button 'Acquire Current Time from Your PC'. The 'NTP Time Server' section has 'Use NTP' (disabled), 'Auto Daylight Saving' (enabled), 'Server Name' (User-Defined), and 'Update Interval' (24 Hours). The 'Time Zone' section has a dropdown for 'Time Zone' set to '(GMT+08:00) Taipei, Taiwan'. 'Apply' and 'Cancel' buttons are at the bottom right.

2. Set the correct time and time zone for your access point using the drop down menus. The access point also supports NTP (Network Time Protocol) so, alternatively, you can enter the host name or IP address of a time server. Click “Apply” when you are finished.

You can use the “Acquire Current Time from your PC” button if you wish to set the access point to the same time as your PC.

The basic settings of your access point are now configured. Please refer to **IV Hardware Installation** for guidance on connecting your access point to a router or PoE switch.

II-3 Wi-Fi Protected Setup (WPS)

Wi-Fi Protected Setup is a simple way to establish connections between WPS compatible devices. You can use the WPS button or the configuration webpage activate the access point's WPS function.

- 1.** Go to **“Wireless Settings” > “WPS”** on your configuration webpage.
- 2.** Check the checkbox of **“Enable”** and click **“Apply”** to turn on WPS function.
- 3.** Within two minutes, activate WPS on your WPS-compatible wireless device. Please check the documentation of your wireless device for information regarding its WPS function.
- 4.** The devices will establish a connection.

III Quick Setup – NMS

Edimax Pro Network Management Suite (NMS) supports the central management of a group of access points, otherwise known as an AP Array. NMS can be installed on one access point and support up to 16 Edimax Pro access points with no additional wireless controller required, reducing costs and facilitating efficient remote AP management.

Edimax Pro NMS is simple to setup. An overview of the system is shown below:

One AP (access point) is designated as the AP Controller (master) and other connected Edimax Pro APs are automatically designated as Managed APs (slaves). Using Edimax Pro NMS you can monitor, configure and manage all Managed APs (up to 16) from the single AP Controller.

Follow the steps below:

Ensure you have the latest firmware from the Edimax website for your Edimax Pro products.

1. Connect all APs to an Ethernet or PoE switch which is connected to a gateway/router.

2. Ensure all APs are powered on and check their LEDs.

- 3.** Designate one AP as the AP Controller which will manage all other connected APs (up to 16).

- 4.** Connect a computer to the designated AP Controller using an Ethernet cable.

5. Open a web browser and enter the AP Controller's IP address in the address field. The default IP address is **192.168.2.2**

Your computer's IP address must be in the same subnet as the AP Controller. Refer to the user manual for help.

If you changed the AP Controller's IP address, or if your gateway/router uses a DHCP server, ensure you enter the correct IP address. Refer to your gateway/router's settings.

6. Enter the username & password to login. The default username & password are **admin** & **1234**.
7. You will arrive at the Edimax Pro NMS Dashboard. Go to **“Management”** → **“Operation Mode”** and select **“AP Controller Mode”** from the drop down menu.

- Click “Apply” to save the settings.

The screenshot shows the Edimax Pro NMS configuration interface. It has a red header bar labeled "Operation Mode". Below it, there are three main sections: "Operation Mode", "Wireless Mode", and "Management". In the "Operation Mode" section, the "Operation Mode" dropdown is set to "AP Controller Mode". In the "Wireless Mode" section, both "2.4GHz Mode" and "5GHz Mode" dropdowns are set to "Access Point". In the "Management" section, the "Self AP Management Mode" dropdown is set to "Disable". At the bottom right, there are "Apply" and "Cancel" buttons, with the "Apply" button highlighted by a red rectangle.

- Edimax Pro NMS includes a wizard to quickly setup the SSID & security for Managed APs. Click “Wizard” in the top right corner to begin.

The screenshot shows the top navigation bar of the Edimax Pro NMS interface. It includes a "Wizard" button, which is highlighted by a red rectangle, followed by "Home", "Logout", and a language dropdown menu currently set to "Global (English)".

- Follow the instructions on-screen to complete **Steps 1-6** and click “Finish” to save the settings.

The screenshot shows the Edimax Pro NMS Setup Wizard. It consists of two panels. The left panel is titled "Step 1" and "Installation". It contains instructions: "Before start, please power on the managed APs and plug into the same Ethernet network with this AP Controller." and "This Setup Wizard will guide you through a basic procedure to configure AP Controller system." At the bottom are "Next >>" and "Cancel" buttons. The right panel is titled "Step 2" and "Local LAN-side IP Address". It contains a table for configuring network settings:

Local LAN-side IP Address	
IP Address Assignment	DHCP Client
IP Address	192.168.2.2
Subnet Mask	255.255.255.0
Default Gateway	From DHCP
Primary DNS Address	From DHCP
Secondary DNS Address	From DHCP

At the bottom of the right panel are "<< Back", "Next >>", and "Cancel" buttons.

If any of your Managed APs cannot be found, reset it to its factory default settings.

- 11.** Your AP Controller & Managed APs should be fully functional. Use the top menu to navigate around Edimax Pro NMS.

Use ***Dashboard, Zone Plan, NMS Monitor & NMS Settings*** to configure Managed APs.

Use ***Local Network & Local Settings*** to configure your AP Controller.

Refer to the user manual for more information.

IV Hardware Installation

IV-1 Router/PoE Switch

1. If you need to, remove the cap from the underside of the access point. This creates extra space for your cables to pass through.

2. Connect a router or a PoE switch to the access point's **LAN 1** port using an Ethernet cable.

- 3.** Power up the access point:
- a) If router is used, connect the power adapter to the access point's 12V DC port and plug the power adapter into a power supply; or
 - b) If PoE (Power over Ethernet) switch is used, make sure the Ethernet cable is connected to **LAN1** port from the switch. The access point will be powered by the PoE switch.

Do not use the power adapter if you are using a PoE switch.

- 4.** Connect a local network client or switch to the access point's **LAN 2** port as required.

Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

1. Reorient or relocate the receiving antenna.
2. Increase the separation between the equipment and receiver.
3. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
4. Consult the dealer or an experienced radio technician for help.

FCC Caution

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

For product available in the USA/Canada market, only channel 1~11 can be operated. Selection of other channels is not possible.

This device is restricted to indoor use.

Federal Radiation Exposure Statement

1. This Transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
2. This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment.
This equipment should be installed and operated with a minimum distance of 20 centimeters between the radiator and your body or nearby persons.

This device is restricted to indoor use.

RED Compliance Statement

Compliance with 2014/53/EU Radio Equipment Directive (RED)

In accordance with Article 10.8(a) and 10.8(b) of the RED, the following table provides information on the frequency bands used and the maximum RF transmit power of the product for sale in the EU:

Frequency range (MHz)	Max. transmit power (dBm)
2400-2483.5	19.90 dBm
5150-5250	22.93 dBm
5250-5350	22.92 dBm
5470-5725	29.29 dBm

This equipment should be installed and operated with a minimum distance of 20 centimeters between the radiator and your body or nearby persons.

A simplified DoC shall be provided as follows: Article 10(9)

Hereby, Edimax Technology Co., Ltd. declares that the radio equipment type **AX1800 Dual-Band Ceiling Mount PoE AP** is in compliance with Directive 2014/53/EU

The full text of the EU declaration of conformity is available at the following internet address: <http://www.edimax.com/edimax/global/>

Safety

This equipment is designed with the utmost care for the safety of those who install and use it. However, special attention must be paid to the dangers of electric shock and static electricity when working with electrical equipment. All guidelines of this and of the computer manufacture must therefore be allowed at all times to ensure the safe use of the equipment.

EU Countries Intended for Use

The ETSI version of this device is intended for home and office use in Austria, Belgium, Bulgaria, Cyprus, Czech, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Turkey, and United Kingdom. The ETSI version of this device is also authorized for use in EFTA member states: Iceland, Liechtenstein, Norway, and Switzerland.

EU Countries Not Intended for Use

None

EU Declaration of Conformity

- English:** This equipment is in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU, 2014/35/EU.
- Français:** Cet équipement est conforme aux exigences essentielles et autres dispositions de la directive 2014/53/EU, 2014/35/EU.
- Čeština:** Toto zařízení je v souladu se základními požadavky a ostatními příslušnými ustanoveními směrnic 2014/53/EU, 2014/35/EU.
- Polski:** Urządzenie jest zgodne z ogólnymi wymaganiami oraz szczególnymi warunkami określonymi Dyrektywą UE 2014/53/EU, 2014/35/EU.
- Română:** Acest echipament este în conformitate cu cerințele esențiale și alte prevederi relevante ale Directivei 2014/53/UE, 2014/35/UE.
- Русский:** Это оборудование соответствует основным требованиям и положениям Директивы 2014/53/EU, 2014/35/EU.
- Magyar:** Ez a berendezés megfelel az alapvető követelményeknek és más vonatkozó irányelveknek (2014/53/EU, 2014/35/EU).
- Türkçe:** Bu cihaz 2014/53/EU, 2014/35/EU direktifleri zorunlu istekler ve diğer hükümlerle ile uyumludur.
- Українська:** Обладнання відповідає вимогам і умовам директиви 2014/53/EU, 2014/35/EU.
- Slovenčina:** Toto zariadenie spĺňa základné požiadavky a ďalšie príslušné ustanovenia smerníc 2014/53/EU, 2014/35/EU.
- Deutsch:** Dieses Gerät erfüllt die Voraussetzungen gemäß den Richtlinien 2014/53/EU, 2014/35/EU.
- Español:** El presente equipo cumple los requisitos esenciales de la Directiva 2014/53/EU, 2014/35/EU.
- Italiano:** Questo apparecchio è conforme ai requisiti essenziali e alle altre disposizioni applicabili della Direttiva 2014/53/EU, 2014/35/UE.
- Nederlands:** Dit apparaat voldoet aan de essentiële eisen en andere van toepassing zijnde bepalingen van richtlijn 2014/53/EU, 2014/35/EU.
- Português:** Este equipamento cumpre os requisitos essenciais da Directiva 2014/53/EU, 2014/35/EU.
- Norsk:** Dette utstyret er i samsvar med de viktigste kravene og andre relevante regler i Direktiv 2014/53/EU, 2014/35/EU.
- Svenska:** Denna utrustning är i överensstämmelse med de väsentliga kraven och övriga relevanta bestämmelser i direktiv 2014/53/EU, 2014/35/EU.
- Dansk:** Dette udstyr er i overensstemmelse med de væsentligste krav og andre relevante forordninger i direktiv 2014/53/EU, 2014/35/EU.
- suomen kieli:** Tämä laite täyttää direktiivien 2014/53/EU, 2014/35/EU. oleelliset vaatimukset ja muut asiaankuuluvat määräykset.

FOR USE IN

WEEE Directive & Product Disposal

At the end of its serviceable life, this product should not be treated as household or general waste. It should be handed over to the applicable collection point for the recycling of electrical and electronic equipment, or returned to the supplier for disposal.

Declaration of Conformity

We, Edimax Technology Co., Ltd., declare under our sole responsibility, that the equipment described below complies with the requirements of the European Radio Equipment Directive.

Equipment: AX1800 Dual-Band Ceiling Mount PoE AP
Model No.: CAX1800

The following European standards for essential requirements have been followed:

Edimax Technology Co., Ltd.

Notice According to GNU General Public License Version 2

This product includes software that is subject to the GNU General Public License version 2. The program is free software and distributed without any warranty of the author. We offer, valid for at least three years, to give you, for a charge no more than the costs of physically performing source distribution, a complete machine-readable copy of the corresponding source code.

Das Produkt beinhaltet Software, die den Bedingungen der GNU/GPL-Version 2 unterliegt. Das Programm ist eine sog. „Free Software“, der Autor stellt das Programm ohne irgendeine Gewährleistungen zur Verfügung. Wir bieten Ihnen für einen Zeitraum von drei Jahren an, eine vollständige maschinenlesbare Kopie des Quelltextes der Programme zur Verfügung zu stellen – zu nicht höheren Kosten als denen, die durch den physikalischen Kopiervorgang anfallen.

GNU GENERAL PUBLIC LICENSE

Version 2, June 1991

Copyright (C) 1989, 1991 Free Software Foundation, Inc. 51 Franklin Street, Fifth Floor, Boston, MA 02110-1301, USA
Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public License is intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users. This General Public License applies to most of the Free Software Foundation's software and to any other program whose authors commit to using it. (Some other Free Software Foundation software is covered by the GNU Lesser General Public License instead.) You can apply it to your programs, too.

When we speak of free software, we are referring to freedom, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish), that you receive source code or can get it if you want it, that you can change the software or use pieces of it in new free programs; and that you know you can do these things.

To protect your rights, we need to make restrictions that forbid anyone to deny you these rights or to ask you to surrender the rights. These restrictions translate to certain responsibilities for you if you distribute copies of the software, or if you modify it.

For example, if you distribute copies of such a program, whether gratis or for a fee, you must give the recipients all the rights that you have. You must make sure that they, too, receive or can get the source code. And you must show them these terms so they know their rights.

We protect your rights with two steps: (1) copyright the software, and (2) offer you this license which gives you legal permission to copy, distribute and/or modify the software.

Also, for each author's protection and ours, we want to make certain that everyone understands that there is no warranty for this free software. If the software is modified by someone else and passed on, we want its recipients to know that what they have is not the original, so that any problems introduced by others will not reflect on the original authors' reputations.

Finally, any free program is threatened constantly by software patents. We wish to avoid the danger that redistributors of a free program will individually obtain patent licenses, in effect making the program proprietary. To prevent this, we have made it clear that any patent must be licensed for everyone's free use or not licensed at all.

The precise terms and conditions for copying, distribution and modification follow.

TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License applies to any program or other work which contains a notice placed by the copyright holder saying it may be distributed under the terms of this General Public License. The "Program", below, refers to any such program or work, and a "work based on the Program" means either the Program or any derivative work under copyright law: that is to say, a work containing the Program or a portion of it, either verbatim or with modifications and/or translated into another language. (Hereinafter, translation is included without limitation in the term "modification".) Each licensee is addressed as "you".

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running the Program is not restricted, and the output from the Program is covered only if its contents constitute a work based on the Program (independent of having been made by running the Program). Whether that is true depends on what the Program does.

1. You may copy and distribute verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep

intact all the notices that refer to this License and to the absence of any warranty; and give any other recipients of the Program a copy of this License along with the Program.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Program or any portion of it, thus forming a work based on the Program, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

- a) You must cause the modified files to carry prominent notices stating that you changed the files and the date of any change.
- b) You must cause any work that you distribute or publish, that in whole or in part contains or is derived from the Program or any part thereof, to be licensed as a whole at no charge to all third parties under the terms of this License.
- c) If the modified program normally reads commands interactively when run, you must cause it, when started running for such interactive use in the most ordinary way, to print or display an announcement including an appropriate copyright notice and a notice that there is no warranty (or else, saying that you provide a warranty) and that users may redistribute the program under these conditions, and telling the user how to view a copy of this License. (Exception: if the Program itself is interactive but does not normally print such an announcement, your work based on the Program is not required to print an announcement.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Program, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Program, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Program.

In addition, mere aggregation of another work not based on the Program with the Program (or with a work based on the Program) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may copy and distribute the Program (or a work based on it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you also do one of the following:

- a) Accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,
- b) Accompany it with a written offer, valid for at least three years, to give any third party, for a charge no more than your cost of physically performing source distribution, a complete machine-readable copy of the corresponding source code, to be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange; or,
- c) Accompany it with the information you received as to the offer to distribute corresponding source code. (This alternative is allowed only for noncommercial distribution and only if you received the program in object code or executable form with such an offer, in accord with Subsection b above.)

The source code for a work means the preferred form of the work for making modifications to it. For an executable work, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the executable. However, as a special exception, the source code distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

If distribution of executable or object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place counts as distribution of the source code, even though third parties are not compelled to copy the source along with the object code.

4. You may not copy, modify, sublicense, or distribute the Program except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense or distribute the Program is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

5. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Program or its derivative works. These actions are prohibited by law if you do not accept this License.

Therefore, by modifying or distributing the Program (or any work based on the Program), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Program or works based on it.

6. Each time you redistribute the Program (or any work based on the Program), the recipient automatically receives a license from the original licensor to copy, distribute or modify the Program subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties to this License.

7. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Program at all. For example, if a patent license would not permit royalty-free redistribution of the Program by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Program.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system, which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

8. If the distribution and/or use of the Program is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Program under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

9. The Free Software Foundation may publish revised and/or new versions of the General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Program specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Program does not specify a version number of this License, you may choose any version ever published by the Free Software Foundation.

10. If you wish to incorporate parts of the Program into other free programs whose distribution conditions are different, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

11. BECAUSE THE PROGRAM IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE PROGRAM "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

12. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE PROGRAM AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES
