WATCH PRO 2

USER GUIDE

V3

MODEL: D2996

PRODUCT OVERVIEW

The watch features a high-quality stainless steel case and a durable, scratch-resistant sapphire crystal lens. The back of the watch is made of aluminum, which is both lightweight and durable. The watch is water-resistant up to 50 meters, making it suitable for swimming and other water activities.

The watch is equipped with a high-precision quartz movement and a reliable battery. The battery life is approximately 10 days on a single charge. The watch also features a variety of smart features, including a heart rate monitor, a pedometer, and a sleep tracker.

The watch is available in two colors: black and silver. The black version has a black strap, while the silver version has a silver strap. The watch is also available in a gold version, which has a gold case and a gold strap.

CHARGE BEZEL

The watch has a magnetic charging bezel that allows you to charge the watch without the need for a cable. To charge the watch, simply place the watch on the charging bezel and the magnetic force will automatically connect the watch to the bezel. The charging time is approximately 2 hours.

The watch also has a standard charging port on the back of the case. This port is used to charge the watch with a standard USB cable. The charging time is approximately 2 hours.

CHARGE STRAPS

The watch is compatible with a variety of straps, including leather, silicone, and metal. The watch is also compatible with a variety of watch bands, including sport bands, dress bands, and casual bands. The watch is also compatible with a variety of watch accessories, including watch covers, watch straps, and watch bands.

PAIRING AND CONNECTION

For pairing, please refer to the QR code on the back of the watch. The QR code is located on the back of the watch, near the bottom of the case. The QR code is used to pair the watch with the cmf by NOTHING app. The app is available on the App Store and Google Play.

Download cmf by NOTHING app from the App Store or Google Play. The app is available in both English and Chinese. The app is used to pair the watch with the cmf by NOTHING app. The app is also used to manage the watch's settings and features.
