FCC Laboratory  
7435 Oakland Mills Rd  
Columbia MD 21046

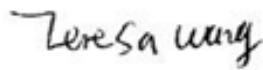

SUBJECT: Class II Permissive Change for FCC ID: **2APYS-HSNL01NFM**

The intention of this application is to enable the modular FCC ID:  
**2APYS-HSNL01NFM**, granted on **12/08/2021** to be integrated in **HP Notebook  
Computer, HSN-I55C**.

The module installed into host platform mentioned above is electronically and mechanically identical to the original certified module. The Original FCC testing on module under FCC ID: **2APYS-HSNL01NFM** was performed with an antenna was connected to the module in an open environment. The current host platform under application uses the same type and is installed inside the host platform enclosure. The physical restraints introduced by the host platform should have resulted in equal or lower level of radiated emission. Therefore, additional Radiated emission testing is not necessary.

Except for the change above, the design, hardware and implementation are exactly same with original.

Sincerely yours,

---

**Teresa Wang**
