Required Exhibits for FCC Certification

FCC E-Label Information

A. Images of the e-label screen are provided below:

The screenshot shows the 'Device Manager' interface with the following elements:

- Filters: Show Routing Devices, Show Latch Devices, Non-Communicating Only
- Device List: A list on the left with '69990001' highlighted in orange and '40000001' below it.
- Device Details (for 69990001):
 - Serial Number: 69990001
 - Device Type: LHW Sensor
 - Device Role: End Device
 - Sensor Version: LHW 2
 - Main Firmware: 1.240
 - Bootloader Firmware: 1.240
 - Latch State: Inverted
 - Open Count: 1
 - Close Count: 4
 - Battery Percent: 99
 - Signal Strength: 96
 - RSSI: -36
 - Time since last comms: 00:00:16
- Configuration and Validation Table:

	Configured	Reported	Valid
Orientation:	None	None	✓
Threshold preset:	0	0	✓
Sensor config:	LHW 2 Debug	LHW 2 Debug	✗
Validation:			✓
- HW ID: 7801_C2_10
- FCC ID: 2ALTW170120
- Buttons: 'Add device serial: 69990001', 'Add device', 'Add LHW conc', 'Add CH GW', 'Remove device', and 'Close'.

This label is shown on the monitor running the Latch Hawk Monitor Software connected to a server running Hawk Server. The Hawk Server is connected to the 1701E 2.0 via a Ethercat Gateway 1801A-GW.

B. Access to the required information on the e-label Users are able to access the information in no more than three steps in a device's menu.

The steps are:

1. Load the device window.
2. Click the device serial number to view the FCC ID
3. The screen above is displayed.

C. Devices have physical labels at point of marketing/sale visible to the purchaser (or in the alternative, on the packaging), and at time of importation?

- The manual contains the FCC ID of the device
- There is a label which will be fixed to the box containing the 1701E 2.0 with the FCC ID shown in document "1701-2.0 - Box Label" attached.

D. Electronic labelling information is programmed into the device by the manufacturer at the time of manufacture.

Yes.

E. Electronic labelling information not modifiable by any third party.

The E-label is hardcoded into the device such that it cannot be altered by a third party

F. All the applicable regulatory information required on the packaging or user instructions is provided according to the rules.

Applicable regulatory information not found in the e-label is contained in the user manual
