

DELL INC.

One Dell Way Round Rock, Texas 78682 United States

Date: December 25, 2023

Request for Modular Approval for

FCC ID: **E2K-QCNCM825**

Item	Requirements	EUT
1.	The modular transmitter must have its own RF shielding.	The radio portion of this module has been shielded, please see exhibition External Photo.
2.	The modular transmitter must have buffered modulation / data inputs.	The EUT has buffered data inputs, it is integrated in chip WCN7851.
3.	The modular transmitter must have its own power supply regulation.	The part number of this regulator is WCN7851.
4.	The module must contain a permanently attached antenna, or contain a unique antenna connector, and be marketed and operated only with specific antenna(s),	The EUT meets the FCC antenna requirements. The spurious emission, unique antenna connector and photo of antennas are shown in the test report.
5.	The modular transmitter must be tested in a stand-alone configuration.	The EUT was tested in a stand-alone configuration via an ExpressCard connector. Please see section Photographs of Test Configuration in the test report, the EUT was plugged in this extender.
6.	The modular transmitter must be labeled with its own FCC ID number.	Please see exhibition Label Sample for the FCC ID of this module. And also in the exhibition User's Manual, there are instructions give to the OEM on how to label the end product.
7.	The modular transmitter must comply with any specific rule or operating requirements applicable to the transmitter and the manufacturer must provide adequate instructions along with the module to explain any such requirements.	The EUT is compliant with all applicable FCC rules. Detail instructions for maintaining compliance are given in the User's Manual.
8.	The modular transmitter must comply with any applicable RF exposure requirement.	The EUT is compliant with all applicable RF exposure requirements. RF Exposure is addressed in the RF exposure exhibition.
