Bluetooth Calling Function

As BSW215 is a Bluetooth Calling watch, the user can make phone calls by using the watch. User does not have to take the phone out to dial number or receive a call. And user can also check the calling record and contacts from the watch. You just need to keep the connection between the watch and the phone stable when using the phone call function.

BSW215 Bluetooth calling watch comes with an in-built micro-phone and an in-built speaker for the ease of making phone call through the watch. And you can listen to music and make voice record by using the watch as well.

Please read the following steps to understand how to connect the watch with phone to use bluetooth calling function and other functions.

How to connect

Step 1: As BSW215 smartwatch is a single chipset smart watch, so you only need to connect smart smart watch with APP. Then the watch will connect with phone bluetooth automatically. Then you can use your phone for bluetooth calling function and phone music function. Due to different systems of iOS phone and Android phone, so the bluetooth connection for iOS and Android is different as well. Please check the following steps for iOS and Android based on the system of your phone.

For iOS

After connecting with APP, APP will show "Bluetooth Pairing Request",you just need to click to "Pair"

After confirming to pair with phone bluetooth,APP will ask "Allow FireBoltt 215 to Receive Your iPhone Notification",please click to allow

After successfully connecting with phone bluetooth,the watch Phone Call interface will display as above

If you can not connect with phone bluetooth, please check as below:

Checking the setting list to make sure "Phone" is on

Then try to connect with phone bluetooth as above steps

For Android

roda	90 Y		
3	STEPS 1756: 2001 PH 40 14	26	Steps
01	La Mi	one and	02199
8	LEEP	0+	00 -
Pair	with Audio-	FireBoltt 21	5? hettary
	Blic	ck	
	Can	cel	
	Pi	107	

After connecting watch with Da Fit APP, it will ask you to "Allow access to your contacts and call history", please allow to pair

Step 2: Go back to watch and enter Phone Call interface to make phone calls, check records and contacts.

(Please keep the music player is in"Play Phone Music" Mode to ensure phone bluetooth is connecting with watch, when you use bluetooth calling function.)

Phone Call Interface

Part A - Making Bluetooth Phone Calls

Tap "Dial pad" icon to enter into Dial pad.

Then you can make bluetooth phone calls via smartwatch.

You can adjust the calling speaker volume by clicking the volume icon

Part B - Add Frequent Contacts

Click "My device" in Da Fit APP to check device settings of smart watch, then tap "Frequent Contacts" to add frequent contacts from phone contacts to watch.

Part C - Check and Sync Recent Calls

Tap Recent Call from Bluetooth Calling interface to check recent calls.

Part D - Switch Calls between Phone or Watch

Switch Between Watch or Phone during an active call:

If your watch is connected to the Phone via Bluetooth,all calls will come on the watch by default. If you want to change the call to the phone during an active call, simply click on FireBoltt 215 Bluetooth icon to select. The call will come via your phone.

Part E - How to Disconnect

If you want to disconnect watch with APP and Phone Bluetooth.You could turn off your phone bluetooth function directly.

Or,you can enter into Setting Center,then tap "Phone Call" icon to turn off.

Charge The Battery And Battery Advisory

BSW215 charger is a 2-pin magnetic charger. If you need to charge smartwatch,you can just put the 2-pin charger on the charging port of the smart watch.

There is a heart rate sensor protector on the sensor,you can take it off before using smartwatch.

It takes about 1.5 hours to 2 hours to fully charge the battery.For first using,please charge the battery for 2 hours before using.

The battery lifetime depends on your usage of the smartwatch. The below lifetime is only for your reference.

General standby time is 25 Days(Not with Screen Always-on function).

Screen always-on standby time is 2 Days. Normally using time is 3-5 Days. Advice: To conserve battery, it is advised to turn off the bluetooth when not in use.

Functions Navigation

The screen can be navigated by swiping left/right or swiping up/down.

FCC Warning

15.19 Labeling requirements.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

15.21 Information to user.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. 15.105 Information to the user.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-Reorient or relocate the receiving antenna.

-Increase the separation between the equipment and receiver.

-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help.

FCC RF Radiation Exposure Statement:

1. This Transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

2. This equipment complies with RF radiation exposure limits set forth for an uncontrolled environment.

This equipment should be installed and operated with minimum distance **5mm** between the radiator and your body.
