A photograph of a blue printed circuit board (PCB) for a mobile device, likely a smartphone. The board is populated with various electronic components, including a SIM card slot on the left, a camera module in the center, and several connectors and integrated circuits. The board is placed on a blue textured surface next to a ruler for scale. The ruler shows measurements in millimeters, with markings at 10, 20, 30, 40, 50, 60, 70, and 80 mm. The PCB has a blue solder mask and gold-plated pads and connectors. The components are densely packed, particularly in the central area around the camera module. The overall layout is rectangular, with mounting holes at the corners and along the edges.
