ACCESSORIES

This section shows how to use the individual accessories with your Vertu phone.

- > *Charger*
- > *Battery*

Keep all parts out of reach of small children.

Use only batteries, chargers and accessories approved by Vertu for use with this particular phone model. The use of any other types may invalidate any approval or warranty applying to the phone and may be dangerous.

To optimise the performance and lifetime of your accessories, and protect your warranty coverage, observe the following handling and usage precautions:

- > *Keep dry. Precipitation, humidity and all types of liquids or moisture can contain minerals that will corrode electronic circuits.*
- > *Do not use or store in dirty or dusty areas.*
- > *Do not attempt to open.*
- > *Do not drop, knock or shake. Rough handling can break fine mechanics.*
- > *Do not store in hot areas. High temperatures can shorten the life of electronic devices and damage batteries.*
- > *Do not store in cold areas.*
- > *Do not use harsh chemicals, cleaning solvents or strong detergents to clean.*
- > *Do not paint.*

For more information about the availability of accessories approved for use with your Vertu phone, contact Vertu Concierge.

CHARGER

The charger recharges your Vertu phone battery quickly and safely by means of a powered AC outlet.

The charger supplied with your Vertu phone should be appropriate for your region. However, you should always check that electrical rating of the AC outlet is appropriate for the charger before you attempt to plug it in.

Never attempt to use a charger if it has been damaged. Contact Vertu Concierge to obtain a replacement.

Attaching the cable to the phone connector

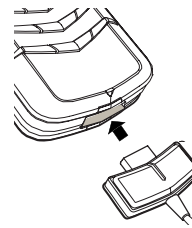

- > Attach the charger cable by inserting it into the adaptor body.

Charging the battery

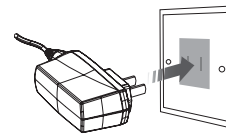

The battery for your Vertu phone is rechargeable and requires charging at regular intervals.

Only use the approved charger and battery designed specifically for your Vertu phone.

- > Insert the charger connector into the bottom of your Vertu phone as shown.

- > Connect the charger body to a powered AC outlet.
- > After a few seconds, the battery indicator animates and a confirmation message is displayed if your Vertu phone is switched on.

If the battery is fully discharged it may take a few moments before the charging indicator appears on the display.

When the battery is fully charged, the battery charge indicator stops animating and, if your Vertu phone is switched on, a confirmation message is briefly displayed.

If your Vertu phone is not charging, try the following:

- > Disconnect the charger from the AC outlet.
- > Check that the electrical rating of the AC outlet is compatible with your charger.

- > Verify that the AC outlet has power and that it is switched on. For example, in many hotel rooms, AC outlets are used for lighting and may be switched on and off from remote locations in the room.
- > Wait for at least 10 seconds and then reconnect the charger to the AC outlet.
- > Use another nearby AC outlet that you know is providing power.
- > If charging still fails, contact Vertu Concierge for further advice.

BATTERY

Never dispose of batteries in a fire.

Always dispose of batteries according to local regulations. Please recycle when possible. Do not dispose of batteries as household waste.

The full performance of a new battery is achieved only after two or three complete charge and discharge cycles. The battery can be charged and discharged hundreds of times but it will eventually wear out. If you notice that the talk and stand-by times are much shorter than normal, you may need a new battery. Contact Vertu Concierge to obtain a Vertu approved battery.

Charging and discharging

Unplug the charger from the AC outlet and your Vertu phone when not in use. Do not leave your Vertu phone connected to a charger. The battery does not have to be completely discharged before you can recharge it. Overcharging the battery may shorten its lifetime. If left unused, a fully charged battery will lose its charge over time. Temperature extremes can affect the ability of your battery to charge.

Battery care and safety

Use the battery only for its intended purpose. Never use any charger or battery that is damaged.

Do not short-circuit the battery. Accidental short-circuiting can occur when a metallic object such as a coin, clip, or pen causes direct connection of the positive (+) and negative (-) terminals of the battery (the metal strips on the battery.) This might happen, for example, when you carry a spare battery in your pocket, purse or bag. Short-circuiting the terminals may damage the battery and the connecting object.

Leaving the battery in hot or cold places, such as in a closed car in summer or winter conditions, will reduce the capacity and lifetime of the battery. Always try to keep the battery between 15°C and

25°C (59°F and 77°F). If your battery is very hot or extremely cold, your Vertu phone may not work temporarily, even if the battery is fully charged. Battery performance is particularly limited in temperatures well below freezing.

As with other mobile radio transmitting equipment, users are advised that for the satisfactory operation of the equipment and for the safety of personnel, it is recommended that the equipment should only be used in the normal operating position. When the phone is on and being worn on the body, always use an approved carrying case.

Use only the supplied or approved parts. Unauthorised antennas, modifications or attachments could damage the phone and may violate regulations governing radio devices.

ELECTRONIC DEVICES

Most modern electronic equipment is shielded from radio frequency (RF) signals. However, certain electronic equipment may not be shielded against the RF signals from your wireless phone.

PACEMAKERS

Pacemaker manufacturers recommend that a minimum separation of 15 cm (6 inches) be maintained between a hand-held wireless phone and a pacemaker to avoid potential interference with the pacemaker. These recommendations are consistent with the independent research by and recommendations of Wireless Technology Research.

Persons with pacemakers:

- > *Should always keep the phone more than 15 cm (6 inches) from their pacemaker when the phone is switched on;*
- > *Should not carry the phone in a breast pocket;*
- > *Should use the ear opposite the pacemaker to minimize the potential for interference.*

If you have any reason to suspect that interference is taking place, switch off your phone immediately.

HEARING AIDS

Some wireless phones may interfere with some hearing aids. In the event of such interference, consult your service provider.

OTHER MEDICAL DEVICES

Operation of any radio transmitting equipment, including wireless phones, may interfere with the functionality of inadequately protected medical devices.

Switch off your phone in health care facilities when any regulations posted in these areas instruct you to do so.

VEHICLES

RF signals may affect improperly installed or inadequately shielded electronic systems in motor vehicles (e.g. electronic fuel injection systems, electronic anti-skid (anti-lock) braking systems, electronic speed control systems, air bag systems).

Check with the manufacturer or its representative regarding your vehicle. You should also consult the manufacturer of any equipment that has been added to your vehicle.

Do not store or carry flammable liquids, gases or explosive materials in the same compartment as the phone, its parts or accessories.

For vehicles equipped with an air bag, remember that an air bag inflates with great force. Do not place objects, including both installed or portable

wireless equipment in the area over the air bag or in the air bag deployment area.

AIRCRAFT

Switch off your phone before boarding an aircraft. The use of wireless telephones in an aircraft may be dangerous to the operation of the aircraft, disrupt the wireless telephone network and may be illegal. In the United States, FCC regulations currently prohibit using your Vertu phone while in the air.

Failure to observe these instructions may lead to suspension or denial of telephone services to the offender, or legal action or both.

POTENTIALLY EXPLOSIVE ATMOSPHERES

Switch off your phone when in any area with a potentially explosive atmosphere and obey all signs and instructions. Sparks in such areas could cause an explosion or fire resulting in bodily injury or even death.

You are advised to switch off the phone when at a refuelling point or service station. Observe restrictions on the use of radio equipment in fuel depots (fuel storage and distribution areas), chemical plants or where blasting operations are in progress.

Areas with a potentially explosive atmosphere are often but not always clearly marked. They include below deck on boats; chemical transfer or storage facilities; vehicles using liquified petroleum gas (such as propane or butane); areas where the air contains chemicals or particles, such as grain, dust or metal powders; and any other area where you would normally be advised to turn off your vehicle engine.

WATER RESISTANCE

 **Your Vertu phone is not water resistant. Keep it dry.**

If your Vertu phone is accidentally splashed with water, ensure you dry it completely before removing the back cover.

Never charge your Vertu phone when the connector at the bottom of the phone is damp or wet. Chargers must only be used in dry conditions. They should never be used when damp or wet..

 *Make sure the interior of your Vertu phone and the back cover seals are dry, clean, and free of any foreign objects before you replace the back cover.*

ANTENNA

Your Vertu phone has an internal antenna. As with any other radio transmitting device, do not touch

the antenna unnecessarily when the phone is switched on. Contact with the antenna affects call quality and may cause the phone to operate at a higher power level than otherwise needed. Avoiding contact with the antenna during a call optimises the antenna performance and the talk time of your Vertu phone.

SAR NOTICE – RHV-8

YOUR VERTU PHONE (MODEL: TBA, TYPE: RHV-8, FCC ID: P7QRHV-8) MEETS GUIDELINES FOR EXPOSURE TO RADIO WAVES

Your Vertu phone is a radio transmitter and receiver. It is designed not to exceed the limits for exposure to radio waves recommended by international guidelines. These guidelines were developed by the independent scientific organization ICNIRP and include safety margins designed to assure the protection of all persons, regardless of age and health.

The exposure guidelines for mobile devices employ a unit of measurement known as the Specific Absorption Rate or SAR. The SAR limit stated in the ICNIRP guidelines is 2.0 watts/kilogram (W/kg) averaged over ten grams of tissue. Tests for SAR are conducted using standard operating positions with the device transmitting at its highest certified power level in all tested frequency bands. The actual SAR level of an operating device can be below the maximum value because the device is designed to use only the power required to reach the network. That amount changes depending on a number of factors such as how close you are to a network base station. The highest SAR value under the ICNIRP guidelines for use of the device at the ear is TBA W/kg.

In order to transmit data files or messages, this device requires a good quality connection to the network. In some cases, transmission of data files or messages may be delayed until such a connection is available. Ensure the above separation distance instructions are followed until the transmission is completed.

Use of device accessories and enhancements may result in different SAR values. SAR values may vary depending on national reporting and testing requirements and the network band. Additional SAR information may be provided under product information at www.vertu.com.

USA and Canada: Your mobile device is also designed to meet the requirements for exposure to radio waves established by the Federal Communications Commission (USA) and Industry Canada. These requirements set a SAR limit of 1.6 W/kg averaged over one gram of tissue. The highest SAR value reported under this standard during product certification for use at the ear is TBA W/kg and when properly worn on the body is TBA W/kg. Information about this device model can be found at <https://gulfoss2.fcc.gov/prod/oet/cf/eas/reports/GenericSearch.cfm> by searching the equipment authorization system using FCC ID: P7QRHV-8.

Vertu shall have no liability to you for any loss, damage, costs, expenses or other claims for compensation arising from requests or instructions supplied by you which are incomplete, incorrect or inaccurate or arising from their late arrival or non-arrival, or any other fault of you.

Vertu shall not be liable to you or be deemed to be in breach of these Terms and Conditions by reason of any delay in performing, or any failure to perform, any of Vertu's obligations in relation to the VC services, if the delay or failure was due to any cause beyond Vertu's reasonable control.

Except in respect of death and personal injury caused by the negligence of Vertu and subject to the provisions of these Terms and Conditions, Vertu's maximum liability to you for breach of any of its obligations hereunder shall be limited to the value of the annual subscription fee, if any, and the relevant charge for the VC services to be provided.

The limitations of liabilities set out herein apply only to the maximum extent permitted by law.

22. Governing Law and Arbitration of Disputes

Any and all claims, except claims for monies due to Vertu, arising out of or relating to the use of VC must be commenced within one (1) year after the date either you or Vertu knew or should have known of the facts giving rise to such claim, after which such actions shall be barred. If acceptance of your membership request or a particular service request takes place within Europe, Middle East or Africa, the governing law shall be English law. All disputes arising out of or in connection with these Terms and Conditions shall be finally settled under the Rules of Arbitration of the International Chamber of Commerce by one arbitrator appointed in accordance with the said Rules. The arbitration proceedings shall be conducted in London, England in the English language. The arbitration decision shall be final and binding. Provided that the parties shall have the right to take proceedings in any other jurisdiction for the purposes of enforcing a judgment or order obtained from the courts of England and Wales.

If acceptance of your membership request or a particular service request takes place within Asia Pacific, the governing law of these Terms and Conditions shall be Singapore law. All disputes arising from or connected to these Terms and Conditions shall be settled finally and exclusively in Singapore under the Rules of the

Singapore International Arbitration Centre (SIAC Rules). The arbitration shall be conducted in English in Singapore. The award shall be final and binding on both parties. Provided that the parties shall have the right to take proceedings in any other jurisdiction for the purposes of enforcing the arbitral award.

If acceptance of your membership request or a particular service request takes place within the Americas region, all disputes and matters relating to arbitration shall be governed by the Federal Arbitration Act (9 U.S.C. §§1 et. seq.). Except to the extent governed by applicable U.S. federal law, any transactions with VC and its Suppliers shall be governed by the laws of the State of Texas, excluding its conflict of law rules. Any and all claims, except claims for monies due to Vertu, arising out of or relating to your membership and use of VC shall be barred unless an action or legal proceeding is commenced within eighteen (18) months after the date you or Vertu knew or should have known of the facts giving rise to such claim. Any dispute relating in any way to your membership and use of VC and any orders placed through VC, shall be submitted (together with any counterclaims and disputes under or in connection with other transactions and/or agreements between you and Vertu) to final and binding, confidential arbitration to the Dallas, Texas office of the American Arbitration Association (the "AAA"), with such arbitration to be held in Dallas County, Texas, except that, to the extent you have in any manner violated or threatened to violate any Vertu or Vertu affiliates' or licensors' intellectual property rights, Vertu may seek injunctive or other appropriate relief in any state or federal court in the state of Texas or, at Vertu's option, any other appropriate state or country, and you consent to exclusive jurisdiction and venue of such court. Arbitration under these Terms and Conditions shall be conducted under the then prevailing Wireless Industry Arbitration Rules of the AAA (except as such rules may be modified by the terms of these Terms and Conditions), unless otherwise agreed in writing by the parties and shall be heard by a single arbitrator. Subject to any terms contained in these Terms and Conditions limiting or excluding damages, the arbitrator may award any relief that the arbitrator deems proper, including without limitation equitable relief, provided that no award of exemplary, special, consequential or punitive damages shall be permitted. The prevailing party, as determined by the arbitrator, shall pay the AAA arbitration fees and the arbitrator's fees and expenses, as applicable. The arbitrator's award shall be binding and may be entered as a judgment and enforceable in any court of competent jurisdiction. To the fullest extent permitted by applicable law, the arbitration shall be conducted on an individual, not a class-wide basis, and no arbitration under these Terms and Conditions shall be consolidated with or joined to an arbitration involving any other person or entity, whether through class arbitration proceedings or otherwise, without the prior written consent of you and Vertu.

23. Force Majeure

Vertu shall not be liable for loss or damage caused by any delay or failure to perform its obligations under these Terms and Conditions caused by failure of any machine, system of authorization, data processing or communications system, transmission link, strikes, lockouts, riots, war, fire, acts of God, accidents, material or transportation shortages, governmental restrictions or injunctions, or denial of import or export licenses, or compliance with any law, regulation or order, or due to any other circumstances or causes that have the effect of frustrating performance of these Terms and Conditions, or any other cause beyond the control of Vertu.

24. General Provisions

Headings - The headings of each of these Terms and Conditions are for convenience of reference only and shall not form part of these Terms and Conditions. Such headings shall be ignored in the interpretation or construction of any of these Terms and Conditions.

Severability - If any provision or provisions of these Terms and Conditions shall be held to be invalid, illegal or unenforceable, such provision shall be enforced to the fullest extent permitted by applicable law, and the validity, legality and enforceability of the remaining provisions shall not in any way be affected or impaired thereby.

No Waiver - Vertu's failure to insist on performance of any term or condition contained in these Terms and Conditions, or failure to exercise any of Vertu's rights hereunder, shall not constitute a waiver of any of Vertu's rights or remedies under these Terms and Conditions.

Entire Agreement - These Terms and Conditions constitute Vertu's and your complete and final statement of the parties' agreements and understandings relating to the subject matter of these Terms and Conditions, and supersedes any related prior agreements, understandings and discussions, oral or written.

Notices - Each party (i.e. you or Vertu) may send notices or communications to the other by personal delivery, e-mail, regular mail or fax. Notices or communications must be sent to the latest contact details specified by the receiving party.
