Re: Review of Application, FCC ID: IMRWLPCE2411R Permissive Change, May22, 2002

Dear Sir/Madam,

This in reaction to the comments/questions asked in email dated May22, 2002.

1. I will upload 4 photos of the antenna model WLE-NDR
2. Both antennae have 3m cable which is part of each total assembly (soldered to the antenna part!). So it can not be delivered without the cable.
3. The antenna with model no. WLE-DA is Directional and has been tested.  
The antenna with model no. WLE-NDR is OmniDirectional and has gain of 2 dBi (as already stated in application letter on Extension of...., dated 07May 2002).

Sincerely yours,

Bert Vos, Regulatory Certifications
