**GENERAL DESCRIPTION**

### 1.0 **General Description**

#### 1.1 Product Description

The 43-3508 is a 900MHz DSSS Cordless Telephone. The unit is capable of either tone or pulse dialing. The internal power supply's isolation is accomplished through a power transformer having an adequate dielectric rating. The circuit wiring is consistent under the requirement of part 68.

The handset unit consists of a keypad with twelve standard keys (0,...9,\*,#), six function keys (Memo, Mute, Flash, Redial, Volume Up, Volume Down). A Phone key is provided to control pick/release telephone line in a toggle base.

The base unit has a page key, which is used to page the handset unit.

Connection between the device and the telephone network is accomplished through the use of USOC RJ11C in the 2-wire loop calling central office line.

### 1.2 Original Identification Information

The original identification (FCC ID) of the equipment is FNXCR-256 and this original application is filed simultaneously along with this application. The name of grantee is Cherish Enterprise Co. Ltd.

### 1.3 Reason of Change in Identification

The original grantee, Cherish Enterprise Co. Ltd. grants the permission to RadioShack, A Division of Tandy Corporation as a new responsible party of the equipment. The authorization letter is attached in Exhibit 2. The equipment of this new application is electrically identical to the old application. The new FCC ID is for marketing purposes only.

### 1.4 Representative of Previous Field Data

The data of the equipment previous filed with FCC ID: FNXCR-256 by commission continues to be representative and applicable to the equipment bearing the changed identification.

All the items listed under this filing are confirmed by:

*Wilson Loke*  
*Manger*  
*Intertek Testing Services*  
*Agent for RadioShack, A Division of Tandy Corporation*
