RE: FCC ID: KBCIX260AC300  
Attention: Jon Hughes

I have a few comments on this Application.

1. Please note that the manual states, "Since each customer's radio configuration is unique please refer to the manufacturer documentation to setup and use your radio(s)." However, the Sierra configuration documentation has not been provided for the laptop tested. Please provide this information that would normally be provided to the user. Alternately, please explain why it has not been provided.
2. Please note that the manual states, "For specific information about your CDPD radio please refer to the manufacturer's documentation. Sierra Wireless AC300/350" The Sierra Wireless information provided is confidential. What information is this referring to? Please provide the information that the user is expected to use for information on the transmitter in this computer. Alternately, please explain in the manual the information needed - or explain why no information is needed or provided.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
