

Installation Guide Requirements – TRM Module

List of Applicable FCC Rules:

- Applicable FCC rules for Modular Transmitters are found in the Installation Instruction Manual in the following locations:
- Page 1 - Compliance Requirements
- Page 2 - FCC and Industry Canada Compliance
- Pages 2 and 3 – FCC and Industry Canada RF Exposure Requirements

Summary of Specific Operation Use Conditions:

- See Installation Instruction Manual, page 4 – Special Instructions.

Limited Module Procedures:

- Not Applicable – Device is not approved as a ‘limited module’.

Trace Antenna Designs:

- Not Applicable – The trace antenna is located on the TRM module, not on the host’s printed circuit board.

RF Exposure Considerations:

- Instructions are provided on pages 2 and 3 in the Installation Instruction Manual under FCC and Industry Canada RF Exposure Requirements.

Antennas:

- See Installation Instruction Manual, page 4 – Special Instructions.

Installation Guide Requirements – TRM Module (Continued)

Label and Compliance Information:

- Instructions for end-device product labeling are found in the following locations in the Installation Instructions:
 - Page 2 under Compliance Requirements and FCC and Industry Canada Compliance
 - Page 4 under Special Instructions.

Information on Test Modes and Additional Testing Requirements:

- Instructions relating to ‘Additional Testing Requirements’ are found on page 1 under Compliance Requirements.

Additional Testing, Part 15 Subpart B Disclaimer:

- Statement found in the following location in the Installation Manual: Page 1 under Compliance Requirements.
