Re: FCC ID #: 2AJ2X-WS102

Dear Sir or Madam:

We, Whoop Inc., received a Grant of Equipment Authorization for the above-referenced equipment on November 14th 2016, a copy of which is attached as Exhibit A. Pursuant to 47 CFR 2.1043(b)(3), we respectfully request you grant a Permissive Change to allow Whoop to also supply our custom USB wall charger with our already authorized product.

The hardware, enclosure, all other components are identical as certified and the output power rating remains the same. Schematics, block diagram, BOM, tune-up procedure, user manual are the same. We have added a USB wall charger to our product offering.

If you have any questions or comments, please do not hesitate to contact me.

Sincerely,

Michael Costa
Director Electrical and Firmware Engineering
Whoop Inc.
