

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of an EUT housing. On the left is the green printed circuit board (PCB) with various electronic components and a red wire. On the right is the black plastic housing with a circular fan-like structure. A black ruler with white markings is placed horizontally below the components for scale.
Solder Board-Component View 1	 A photograph showing a solder board component. It features a circular copper coil on a black substrate, with a small orange component attached. A black ruler with white markings is placed horizontally below the component for scale.

Solder Board-Component View 2	 A photograph of a green, semi-circular printed circuit board (PCB) component. The component is positioned on a blue textured surface next to a black L-shaped ruler. The ruler has white markings in millimeters, with the vertical scale ranging from 0 to 100 mm and the horizontal scale from 0 to 100 mm. The PCB has several small electronic components, including a central integrated circuit (IC) and several surface-mount components. The text "WPC15-1TXMB" and "2023.2.20" are visible on the PCB.
Solder Board-Component View 3	 A photograph of the same green, semi-circular PCB component from a different angle. The component is positioned on the same blue textured surface next to the same black L-shaped ruler. The ruler's scales are visible, with the vertical scale from 0 to 100 mm and the horizontal scale from 0 to 100 mm. The PCB shows the same components as in View 2, but from a different perspective. The text "WPC15-1TXMB" and "2023.2.20" are also visible.

Solder Board-Component View 4	 A circular electronic component, likely a microcontroller or sensor, is shown against a blue background. The component is dark with various soldered components and markings. It is positioned next to a black ruler with white markings, which shows dimensions in millimeters. The ruler is oriented vertically and horizontally, providing a scale for the component's size.
Solder Board-Component View 5	 A circular electronic component, likely a microcontroller or sensor, is shown against a blue background. The component is light-colored with various soldered components and markings. It is positioned next to a black ruler with white markings, which shows dimensions in millimeters. The ruler is oriented vertically and horizontally, providing a scale for the component's size.
