

## Modular Approval Request Letter

Dear Sir,

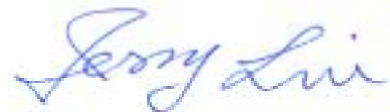

There's a 54Mbps. 802.11g Wireless PCI adapter that would like to have your authorization as a modular approval.

The specific product as below, 54Mbps. 802.11g Wireless PCI adapter, with its designed features and specified description, meets special requirements for limit modular approval on FCC Public Notice DA 00-1407 by cross-reference list below.

Company	: Z-Com, Inc.
Model Name	: 54Mbps. 802.11g Wireless PCI adapter
Model Number	: XG-650E
FCC ID	: M4Y-XG650E

Requirement of Public Notice DA00-1407	Reference to XG-650E
1. The modular transmitter must have its own RF shielding.	The module has its own RF shielding. Please see <a href="#">external photo.pdf</a>
2. The modular transmitter must have buffered modulation/data inputs.	The modular has buffered data inputs, it is integrated in chip U8 Radia RC2422, U2 Radia RC2326. Please see <a href="#">Technical description .pdf</a>
3. The modular transmitter must have its own power supply regulation.	All power lines derived from the host device are regulated before energizing other circuits internal to the XG-650E. Please see <a href="#">operation description .pdf</a>
4. The modular transmitter must comply with the antenna requirements of Section 15.203 and 15.204(c).	The XG-650E meets the FCC antenna requirements. It has a dipole antenna. Please see <a href="#">external photo.pdf</a>
5. The modular transmitter must be tested in a stand-alone configuration, i.e., the module must not be inside another device during testing.	The XG-650E was tested in a stand-alone configuration via a PCMCIA extender. Please see <a href="#">conducted set-up photo.pdf</a> and <a href="#">spurious set-up photo.pdf</a>
6. The modular transmitter must be labeled with its own FCC ID number, and, if the FCC ID is not visible when the module is installed inside another device, then the outside of the device into which the module is installed must also display a label referring to the enclosed module.	The label position of XG-650E is clearly indicated. Please see the <a href="#">label.pdf</a>
7. The modular transmitter must comply with any specific rule or operating requirements applicable to the transmitter and the manufacturer must provide adequate instructions along with the module to explain any such requirements. A copy of these instructions must be included in the application for equipment authorization.	The XG-650E is compliant with all applicable FCC rules. Detail instructions are given in the Users Manual. Please see <a href="#">Installation guide.pdf</a>
8. The modular transmitter must comply with any applicable RF exposure requirements. For example, FCC Rules in Sections 2.1091, 2.1093 and specific Sections of Part 15, including 15.319(i), 15.407(f), 15.253(f) and 15.255(g), require that Unlicensed PCS, UNII and millimeter wave devices perform routine environmental evaluation for RF Exposure to demonstrate compliance. In addition, spread spectrum transmitters operating under Section 15.247 are required to address RF Exposure compliance in accordance with Section 15.247(b)(4).	The XG-650E comply with applicable RF exposure requirements. Please see <a href="#">RF safety evaluation. pdf</a>

Yours sincerely,

Jerry Liu
