Packing list

Bluetooth transmitter receiver x1 3.5mm AUX Cable x1 Charging Cable x1 RCA Cable x1 Manual & Warranty Card x1

Product diagram

Basic parameters

Model name: JR-CB2S
Bluetooth version: V5.4
Frequency range: 2.402-2.480GHz
Rx working time: About 18 hours
Tx working time: About 30 hours
Charging time: About 2 hours
Bluetooth protocol: A2DP, AVRCP
Pair 2 devices(tx): support

Pair 2 devices(rx): support
CODEC: SBC
Battery: 400mAh Rechargeable lithium battery
Charging voltage: 5V DC ±500mA
Working temperature: -10~55℃
Weight: 27g
Size: 47.5mm*47.5mm*16.3mm

Basic function

Power Button	Power on	Long press "Power Button" 2-3s to power on
	Power off	Long press "Power Button" 2-3s to power off
	Pairing	Double press "Power button" to enter pairing mode
	Power off forcibly	In abnormal state, long press "Power button" 8-9s to power off forcibly

FAQ

A. Auto-power off

In the RX/TX state, if no device is connected for more than 10 minutes or the battery voltages below 3.1V, the device will automatically shut down.

B. How to connect back? What if I can't connect it back?

After the JR-CB2S is successfully connected to the Bluetooth device, it will be automatically connected back to your device every time you start up. If the connection fails, please retry the connection.

C. How to clear pairing records?

In the state of TX or RX in , long press the "Confirm" button for 3 seconds,the display will display the prompt to clear pairing:
Yes: Press ▽ (Press the "volume down button" to clear it directly, and the screen displays "Resetting...". the red and blue lights flash four times simultaneously (the cleared records include TX and RX)
Factory Reset ?
No: Press △ (Press "volume up button" to cancel).

D. What should I do if there are some exceptions such as power-on failure, abnormal connection and so on?

You can try to power off completely, long press the "power button" for 8-10 seconds, you can force power off, and then restart to use.

E. What is the charging voltage and current? What equipment can charge it?

As long as the DC voltage is 5V and the current is morethan 500mA, the car charger, the bus charger, and the computer USB can charge the JR-CB2S.

Safety Criteria

1. Please follow the instructions, do not disassemble the product or refit it for any reason, otherwise it may break down or burn down.
2. Do not immerse it in any liquid or wash it with water.
3. Please use adapters that conform to national/regional safety standards together with the included charging cable to charge the product, otherwise its battery may be damaged or cause safety problems.
4. Please use and store it in normal temperatures; too low or too high temperature (below 0℃ or above 45℃) is not permitted.
5. Do not block the openings of the product, such as charging port, indicator, etc.
6. Do not use it at high volume levels or for long periods of time to avoid dizziness or hearing damage.
7. Do not use it under thunderstorm which may lead to abnormal performance and signal interruption.

It is hereby declared that this product model of JOYROOM, complies with the provisions of Directive 2014/53/EU and Directive 2011/65/EU The full text of the EC Declaration of Conformity can be found on the following website/https://www.joyroom.com

This equipment complies with the provisions of Directive 2012/19/EU and 2006/66/EU It is strictly forbidden to dispose of this equipment with ordinary trash. It must be recycled. This symbol indicates that the product shall not be treated as regular domestic trash, and must be delivered to a recycling center that is capable of recycling electronic and electrical equipment.

WARNING

① Before installing or operating the product, please refer to the electrical and safety information on the bottom of the shell.
② Disposing of the battery by throwing it into fire or a hot oven, or by mechanically crushing or cutting it may result in an explosion.
③ When the battery is exposed to extremely low air pressure, it may cause an explosion or lead to flammable liquid or gas leakage.
④ Please follow the above safety instructions otherwise it will cause fire, electric shock, damage or other injuries.

FCC NOTE:

This device complies with Part 15 of the FCC Rules.
Operation is subject to the following two conditions:
(1) this device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.
Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.
However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
--- Reorient or relocate the receiving antenna.
--- Increase the separation between the equipment and receiver.
--- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
--- Consult the dealer or an experienced radio/TV technician for help.
The device has been evaluated to meet general RF exposure requirement.
The device can be used in portable exposure condition without restriction.
