Dear Timothy:

After the review of your comments, we have made some response upon your advice; they are summarized as follows:

1. The EUT is tested according to the requirements of both PC peripheral and Tx device. We will note that and having the photo inserted into our report in the future. For the photo with the minimum PC configuration, please find them in the uploads as an exhibit separately.
2. The pages with the regulatory statement 15.105(b) is inserted to the manual and uploaded as an exhibit separately.
3. You may find the description about the antenna at the right hand side on the page 5.
4. The pages with the corrected DoC statement of compliance is inserted and uploaded with the exhibit of comment #2 together.

Should you have any questions or more information is needed, please don't hesitate to ask us.

Thank you.

Sincerely yours,

Eric Wong

Project Engineer
