

## Description of Permissive Change

The application is prepared for FCC class III permissive change by adding frequency band and mode through software enabling to its original parent application. The adding frequency band is from 5.26 to 5.32GHz, 5.50 to 5.720GHz.

Please refer as below for the detail:

	FCC ID: PD5-NWA1050 (Original)	FCC ID: PD5-NWA1050 (C3PC)
SW Version	<b>22.1.5</b>	<b>22.1.5-H9</b>
Difference	Without DFS Band	With DFS Band

There is no Class II hardware change and no change to the original Software, Distribution and Security procedure. Existing devices will be field-upgraded to the latest software version.

Both devices, original and updated versions, are electrically identical in all aspects except enabling frequency bands of 5.26 to 5.32GHz, 5.50 to 5.720GHz
