

Declaration Letter

To whom it may concern,

Hereby, we HAJEN Co., Ltd declare that for FCC ID:2ACFTRT1505NN apply for a renew application

a). The hardware of the PCBA is the same as the original one, except that the external ground (copper foil on the bottom case) is added. The EMI gasket on the LTE module can be used for heat dissipation and reduce ground noise;

B). The LTE antenna type remains unchanged, the antenna line direction changes, and the gain value changes; the BT/WIFI antenna does not change.

C). The LTE module remains unchanged, and the power is not higher than the original. The original LTE frequency band is B2/B25/B26/B41 (2496-2690MHz). Now B26 is deleted through software and B4/B12/B66, QPSK/16QAM is added;

D). The BT/WIFI module remains unchanged, the power is not larger than the original, and the wireless specifications remain unchanged;

No other changes, we have evaluated those changes in the SAR, RF (WWAN) and EMC reports.

Please be noticed.
