

FCC E-Label Information

Model: EABF22206A, ECBF22208A

A. Information to be displayed

The information that will be displayed on the e-label and information that will remain in the user manual is shown below:

Information	on E-label	In Manual
FCC ID number	Yes	Yes
Compliance statement	No	Yes
Caution to the user that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment ¹	No	Yes
Describe any other FCC regulatory information included in e-label ¹		
¹ If the e-label includes information typically included in the manual then the e-label shall clearly differentiate between information required to be on the device's surface and information required to be in the manual – refer to 784748 D02 e labelling v01 section II D 3(b)		

Images of the e-label screen are provided below:

Model EABF22206A:

Model ECBF22208A:

B. Access to the required information on the e-label

1. Users are able to access the information in no more than three steps in a device's menu. The actual steps are: *To access the e-label information, in the device, Choose:*

Settings > About Phone > Regulatory labels

No special access codes or permissions are required to go through the above steps beyond entering a user-defined password to protect against unauthorized access to the device.

2. The information is stored on the device, no special accessories or SIM/USIM card are required to access the information.

Yes

C. Labeling for Importation and Purchasing

Products utilizing e-labels are required to have a physical label on the product at the time of importation, marketing and sales. For devices imported in bulk and not packaged individually, a removable adhesive label or, for devices in protective bags, a label on the bags is acceptable for this purpose. Any removable label shall be of a type intended to survive normal shipping and handling and must only be removed by the customer after purchase.

The device will have required physical label on the packaging, which include the device's FCC ID.

D. Other considerations

1. Electronic labeling information must be programmed by the responsible party and the information must be secured in such a manner that third-parties cannot modify it.

The e-label information is pre-programmed by the grantee. The user cannot modify the e-label information.

2. All the applicable regulatory information required on the packaging or user instructions must be provided according to the rules even if it is displayed electronically. For example, hearing aid compatibility (HAC) ratings for the phones as specified in 47 C.F.R. § 20.19.

Yes, it is provided.
