

IDENTIFICATION LABEL

LOCATION

A nameplate of the type presented below will be affixed to every transmitter. It will be placed near the front left corner on the bottom of the housing of the transceiver.

TYPE

The label is a paper polyester film laminate with a pressure sensitive adhesive backing. The adhesive is a permanent type acrylic with a minimum peel strength of 40 oz/inch.

GENERAL INFORMATION

1. Production Plans -- Pursuant 2.981 (c)

Quantity production is planned.

2. Application References -- Pursuant 2.1061

This transceiver, with the exception of the transmitter RF output power, is identical to the transceiver filed under FCC ID AZ492FT5778.

3. Data Submittal Procedure:

Data is supplied in accordance with Part 2, Sub-part J of the Commissions' rules.

The intended use of this transceiver includes applications covered in the Code of Federal Regulations Title 47, Part 90.
