Technical specifications	
Frequency control	Crystal controlled PLL synthesizer
Minimum frequency	Parent unit: 2405 - 2425 MHz Baby unit: 2405 - 2425 MHz
Channels	32
Maximum effective range	1. Vtech VM3252 (Parent) 2. Vtech VM3252-2 (Baby) Maximum power output: 1W (Parent), 0.5W (Baby) Maximum effective range: 1000 ft (300m) (Parent), 1000 ft (300m) (Baby)
Power requirements	Parent unit: 1. Vtech VM3252 (Parent) 2. Vtech VM3252-2 (Baby) Maximum power output: 1W (Parent), 0.5W (Baby) Maximum effective range: 1000 ft (300m) (Parent), 1000 ft (300m) (Baby)
Parent unit battery	3.6V Ni-MH battery (Built-in)
Parent unit battery	3.6V Ni-MH battery (Built-in)

IMPORTANT SAFETY INSTRUCTIONS

- The applied nameplate is located at the bottom of the baby unit base.
- When using your equipment, basic safety precautions should always be followed to reduce the risk of fire, electric shock and injury, including the following:
1. Follow all warnings and instructions marked on the product.
 2. Adult supervision is required.
 3. **CAUTION:** Do not install the baby unit at a height above a child's reach.
 4. This product is not a substitute for adult supervision of the infant. Supervising the infant is the parent's 100% responsibility. This product could cause operating, and therefore you should not assume it will continue working properly for any great period of time. Further, this is not a medical device and should not be used as such. This product is intended to assist you in supervising your baby.
 5. Do not use this product near water. For example, do not use it near a bathtub, swimming pool, kitchen sink, laundry tub or swimming pool, or in a wet basement or shower.
 6. **CAUTION:** Use only the battery provided. There may be a risk of explosion if a wrong type of battery is used for the parent unit. The battery cannot be recharged by itself. Do not attempt to recharge the battery or use it at high altitude during use, storage or transportation. Disposal of battery into fire is a hot event, or mechanically crushing or cutting the battery can result in an explosion. Leaving the battery in an extremely high temperature surrounding environment can result in an explosion or the leakage of flammable liquid of use. Battery subjected to external heat or fire may result in an explosion or the leakage of flammable liquid of use. Dispose of used battery according to the information in the **RECYCLE** tag.
 7. Use only the adapters included with this product. Incorrect adapter polarity or voltage can seriously damage the product.
 8. Do not use liquid or aerosol cleaners. Use a damp cloth to clean the product.
 9. The power adapters are intended to be correctly inserted in a vertical or floor mount position only. The prongs are not designed to hold the plug in place if it is plugged into a ceiling, under the table or cabinet outlet.
 10. For plug-in cable modems, the network cable must be installed before the modem and the network cable must be installed before the modem.
 11. Do not use the product from the wall outlet after cleaning. Do not use liquid or aerosol cleaners. Use a damp cloth to clean the product.
 12. Do not cut off the power adapters to replace them with other power adapters.
 13. Do not allow anything to rest on the power cords.
 14. Do not use the product where the cords may be walked on or tripped.
 15. This product should be placed only on a flat, level surface. Do not place the product on an unstable table, shelf, stand or other unstable surface.
 16. This product should not be placed in any area where there is a risk of fire, explosion, or other danger. Do not place the product near heat sources, open flames, or other sources of heat.
 17. Do not use the product near water.
 18. Do not use the product near water.
 19. Do not use the product near water.
 20. Do not use the product near water.
 21. Do not use the product near water.
 22. Do not use the product near water.

 97. Do not use the product near water.
 98. Do not use the product near water.
 99. Do not use the product near water.
 100. Do not use the product near water.

WHAT'S IN THE BOX

1 CONNECT THE BABY MONITOR

Install the battery
The parent unit runs on rechargeable battery or AC power. To continuously monitor your baby, make sure you use both battery and AC power at the same time. With the battery alone, the parent unit can cordlessly run for a short time only.

- NOTES**
- Use only the battery supplied with this product.
 - If the parent unit will not be used for a long time, disconnect and remove the battery to prevent possible leakage.

Replace the battery
To replace the battery, press down on the battery compartment cover and pull it out, then follow the steps above to install the battery.

Connect the baby monitor

- NOTES**
- Use only the power adapters supplied with this product.
 - Make sure the baby monitor is not connected to the switch controlled electric outlet.
 - Connect the power adapters in a vertical or floor mount position only. The adapters' prongs are not designed to hold the weight of baby monitor, so do not connect them to any ceiling, under-the-table, or cabinet outlets. Otherwise, the adapters may not properly connect to the outlets.
 - Make sure the parent unit, the baby unit and the power adapter cords are out of reach of children.

Charge the parent unit battery
When you have connected and turned on the parent unit, the battery will be charged automatically.

- NOTES**
- Before using the baby monitor for the first time, charge the parent unit battery for 12 hours. When the parent unit battery is fully charged, the battery icon becomes solid.
 - It takes longer to charge the battery when the parent unit is turned on. To shorten the charging time, turn the parent unit off while charging.
 - The standby time varies depending on the sensitivity level you set, your actual use and the age of the battery.

2 POWER ON OR OFF THE BABY MONITOR

3 POSITIONING THE BABY MONITOR

- CAUTION**
- The default volume of your parent unit is level 3, and the maximum volume is level 5. If you experience high-pitched screaming noise from your baby monitor while positioning:
 - Make sure your baby unit and parent unit are more than 1 meter (3 feet) apart, OR
 - Turn down the volume of your parent unit.
- NOTE**
- To avoid interference from other electronic devices, place your baby monitor at least 3 feet (1 meter) away from devices such as wireless routers, microwaves, cell phones or wireless laptops.

4 STATUS CHECK

BASIC OPERATION - PARENT UNIT

Adjust speaker volume
Press **VOL+** / **VOL-** to adjust your parent unit speaker volume.

Talk to your baby unit
Press and hold **TALK** and speak to your parent unit. Your voice is transmitted to the baby unit. Release **TALK** when finish talking and hear your baby again.

Turn off the screen
Press and hold **LCD ON/OFF** to switch off the screen. You can still hear sound from the selected baby unit.

Use the menu
Press **MENU** to enter the menu, or save a setting. You can use the parent unit for advanced settings or operations, such as to play or stop the baby unit lullaby, or to adjust the baby unit sound sensitivity.

- While in the menu:**
- Press **Left** / **Right** to scroll among the menu options.
 - Press **SELECT** or **Enter** to enter the desired submenu.
 - Press **Up** / **Down** to select an item.
 - Press **SELECT** to confirm your selection.
 - Press **Left** / **Right** to exit the submenu.

NEED HELP?

For operations and guides to help you using your video monitor, and for latest information and supports, go and check the online help topics and online FAQs.

Use your smartphone or mobile device to access our online help.

- Go to <https://help.vtechphones.com/vm3252> or <https://help.vtechphones.com/vm3252-2>, OR
- Scan the QR code on the right. Launch the camera app or QR code scanner app on your smartphone or tablet. Hold the device's camera up to the QR code and frame it. Tap the notification to trigger the redirection of the online help.
- If the QR code is not clearly displayed, adjust your camera's focus by moving your device closer or further away until it is clear.

You can also call our Customer Support at 1 (800) 595-9511 (in US) or 1 (800) 267-7377 (in Canada) for help.

PARENT UNIT ICONS

- Status icons**
- **Yell** or **Yell** displays when strong signal strength is detected between the baby unit and the parent unit.
 - **Ye** or **Ye** displays when moderate or low signal strength is detected between the baby unit and the parent unit.
 - **Patrol** mode
 - Displays when the parent unit is in **PATROL** mode.
 - For VM3252-2 only
 - **Current view status**
 - Displays the baby unit number of the baby unit that is being viewed.
 - **Zoom**
 - Displays when the current image on the parent unit has zoomed in.
 - **Night vision**
 - Displays when the baby unit being viewed has activated the night vision feature.
 - **Lullaby**
 - Displays when a lullaby is playing.
 - **Talkback**
 - Displays when talking back to the baby units from parent unit.
 - **6-level sound indicator**
 - Displays the sound level according to the scales of loudness when there is sound transmitted from the baby unit.
 - I (1 to 2 bars) indicates low sound level detected by the baby unit.
 - III (3 to 4 bars) indicates moderate sound level detected by the baby unit.
 - IIIII (5 to 6 bars) indicates high sound level detected by the baby unit (e.g. baby crying loudly).
 - **Mute alert**
 - Displays when the parent unit speaker volume is set to zero.
 - Displays when the parent unit is talking to the baby unit.
 - **Real-time temperature**
 - Displays the real-time temperature detected by the baby unit in Fahrenheit (°F) or Celsius (°C) (e.g. 57°F or 14°C).
 - **Battery status**
 - animates when the battery is charging.
 - displays solid when the battery is fully charged.
 - displays when the battery is low and needs charging.
 - **AC power without battery**
 - Displays when the parent unit is connected to AC power without the battery.
 - **Speaker volume**
 - Displays the parent unit speaker volume level while adjusting.

- Main menu icons**
- **Brightness**
 - You can change the brightness of the parent unit screen.
 - **LCD screen off timer**
 - You can set a specific time to screen off your parent unit.
 - **Temperature**
 - You can choose to set the maximum/minimum temperature and turn on the temperature alert tone so that the parent unit beeps whenever the room temperature detected by the baby unit falls outside of the desired temperature range.
 - You can also choose to display the temperature in Fahrenheit (°F) or Celsius (°C) on your parent unit.
 - **Sound-activated screen**
 - When the baby unit being viewed detects no sound, the parent unit screen stays off to save power. Once a sound is detected, the parent unit screen turns on automatically. It will then turn off again after 50 seconds of no sound detection.
 - **Vox sensitivity**
 - With this feature, you can choose to hear sounds from the baby unit all the time, or to hear sounds that exceed a certain level. You can use the parent unit to adjust the microphone sensitivity of your baby unit. The higher the sensitivity level, the more sensitive the baby unit is in detecting sounds for transmitting to the parent unit.
 - **Lullaby**
 - You can select, play, or stop a lullaby.
 - **Patrol mode**
 - You can monitor your baby in **PATROL** mode.
 - For VM3252-2 only
- Warning icons and messages**
- **Battery low at Parent Unit**
 - The battery is empty and needs to be recharged.
 - **Operation is in progress.**
 - The temperature detected by the baby unit is higher than the desired temperature alert range.
 - **Temperature too high**
 - The temperature detected by the baby unit is lower than the desired temperature alert range.
 - **Temperature too low**
 - The parent unit is searching for baby units or the link between the baby unit and the parent unit is lost.
 - **No Link to Camera**
 - The parent unit is connected to AC power.
