Warning
1. Contains small parts which may be a chocking hazard. Not suitable for children under age 3.
2. Use extreme caution when operating a vehicle or similar activity that requires your full attention while using your headset/headphones. Some jurisdictions impose specific limitations, such as single earpiece configuration, on the use of such products while driving.
3. Long-term exposure to loud music may cause hearing damage. It is best to avoid high volume levels when using headphones, especially for extended periods.

NOTE:
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/
TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

B. Pairing:
   1. With the headphones turned off, press and hold
      ⏻ M until the LED flashed blue and red rapidly.
   2. On your device, turn on the Bluetooth function, and
      set it to search for Bluetooth devices.
   3. Select NENOS-02 from the list of found devices.
   4. When paired, the LED flashes blue slowly

Note:

   ·During paring, if the headphones are not connected to
   a device within 5 minutes, they automatically turn off.
   ·When successfully paired, your headphones
   automatically reconnect to the most recently paired
   device when switched on.

C. Trouble shooting Pairing
   In case of problems pairing, you may need to clear
   pairing before you attempt to pair again.
   1. Switch on the headphones, then press and hold
      for 5 seconds. The LED rapidly flashed blue and red
      twice at the same time, then flash blue and red
      alternately.
   2. Press and hold ⏻ M to turn off. When you next switch
      on the headphones, no longer pair automatically

Note:
To delete NENOS completely from your device memory, you
