QUICK GUIDE

USER MANUAL

Thank you for purchasing this innovative LOGIC device. The specifications in this document are subject to change without prior notice.

LOGIC and the LOGIC logo are registered trademarks of Swagtek, Inc. Other trademarks are the property of their respective owners.

Charge for 24 hours before using.

Install SIM card / memory card.

Get to know your Logic phone

Connect your Logic phone to the computer using the USB cable.

Copy music files from your computer to your Logic phone.

FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following conditions:

1. This device may not cause harmful interference.
2. This device must accept any interference received, which may cause undesired operation.

The equipment has been tested and found to comply with the limits for a Class B digital device, which means that it can cause some interference with other electronic equipment. This equipment should be used in accordance with the following instructions:

- Do not use the equipment near a power line.
- Do not use the equipment near a power line.
- Do not use the equipment near a power line.

Radio Frequency Interference

The device may interfere with radio frequency equipment. To avoid this, do not use the equipment near radio frequency equipment. If you experience interference, stop using the equipment and contact the manufacturer.

Interference

The device may interfere with radio frequency equipment. To avoid this, do not use the equipment near radio frequency equipment. If you experience interference, stop using the equipment and contact the manufacturer.

Class B Digital Device

This device is a Class B digital device. It is designed and manufactured to meet the requirements of the FCC Rules. It is subject to the following conditions:

- It must not cause harmful interference.
- It must accept any interference received, which may cause undesired operation.

WARNING

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

This Product meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health.

FCC RF Exposure Information and Statement the SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of this Device (FCC ID: O55634521 has been tested against this SAR limit. SAR information on this can be viewed on-line at <http://www.fcc.gov/oet/ea/fccid/>. Please use the device FCC ID number for search. This device was tested for typical operations 10mm from the body. To maintain compliance with FCC RF exposure requirements, 10mm separation distance should be maintained to the user's bodies

NOTE:

This equipment has been tested and found to comply with the limits for a Class B digital

device, pursuant to Part 15 of the FCC Rules.

These limits are

designed to provide reasonable protection against harmful interference

in a

residential installation. This equipment generates, uses and can radiate radi

o frequency energy and, if not installed and used in accordance with the instructions,

may cause harmful interference to radio communications.

However,

there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception,

which can be determined by turning the equipment off and on, the user is encouraged to

try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
