EUT View 3	
EUT View 4	

EUT View 5	 A side view of a black, U-shaped probe. The probe has a circular base with a small blue label on top. A black cable connects the base to a white, cylindrical tip. The probe is resting on a blue surface. A ruler is placed below the probe for scale, showing markings from 33 to 73.
EUT View 6	 A top-down view of the same black, U-shaped probe. The probe is shown from above, highlighting the circular base and the white tip. It is resting on a blue surface. A ruler is placed below the probe for scale, showing markings from 27 to 71.

EUT View 7	 A black circular device with a cable and a probe, next to a ruler. The device has a black cable attached to its side and a black probe with a silver tip. A ruler is placed below the device for scale.
	 A close-up of the device's rear panel. It features a USB port on the left and a DC12V 2A input on the right. The text "DC5V 2.1A" is printed above the USB port, and "DC12V 2A" is printed above the input.
