

CONTROLS & CONNECTIONS

NOTE: The fixed adhesive mount is a semi-permanent mount and the adhesive will be destroyed if it is removed from the windshield.

INSTALLATION

MOUNT

Remove adhesive backing and firmly press onto your windshield to install the Fixed Adhesive Mount. The camera slides in and out of the adhesive mount slot.

POWER

Plug the unit into your vehicle's cigarette lighter plug.

When power is applied to the unit it will automatically turn on and start recording.

Press the **Record** button to stop or start recording.

Press A to lock the current file so that it won't be recorded over.

To change languages, press Menu to enter Video Options and then navigate to Language.

COMPUTER CONNECTION

To view videos on a computer, connect the unit using the included USB to mini-USB cable.

The camera appears as a removable disk and files can be accessed in the DCIM folder.

NOTE: The optional GPS module (not included) saves GPS position, speed, and acceleration data to your video files. For more information or to purchase, visit www.cobra.com.

STORAGE

An 8GB Class 4 Micro SD card comes installed in this unit, but it can support up to a 32GB card.

When the card is full it will delete the oldest clips to make room for new footage.

CONTINUOUS LOOP RECORDING
