

Date: 8 December 2005

Equipment Authorization Branch,
Federal Communication Commission

To Whom It May Concern:

PURPOSE OF CHANGE LETTER
For the Model: FV600

I hereby confirm that the model **FV600** is the altering original certified model of **FV500** for marketing purpose.

These models are identical in all electrical and mechanical designs (i.e. **RF circuit, electrical circuit, PCB layout, and mechanical & cosmetics designs**) except the antenna length. The change is not intended for increasing transmitter conducted output power.

The main modification is increasing the antenna length from 55 mm to 70 mm in order to increase the transmission range. The antenna design and construction remain the same.

Should you have any query, please feel free to contact me.
