RE: FCC ID: LJPKNW-1X

Attention: Michael Mobley

I have a few comments on this Application.

1. Your documents state that the second source is 'electrically the same. However, being electrically identical does not in itself mean the new PWB is mechanically the same as well. Please verify if the second source PWB is both electrically and mechanically identical. If they are not identical in electrical layout and mechanical construction then SAR testing may have to be done.
