Subject; **Modular Transmitter Application**

**Company name: Guangzhou BDE Technology Inc.**

**FCC ID:2ABRU-BW330P2**

Dear Sir/Madam,

This letter includes the FCC application requirements for Modular Transmitter Approval Request for;-

FCC KDB 996369 D01 'Module Certification Guide v02; and  
FCC KDB 996369 D03 OEM Manual v01

In accordance with 47CFR 15.212 Modular Transmitters and KDB 996369 D01 'Module Equip Auth Guide v02'. FCC ID 2ABRU-BW335P2 has been examined against the following requirements.

<b>Requirement per 15.212 and KDB 996369 D01</b>	<b>Explanation from Grantee</b> (do not write yes/no, but explain why product complies/how it is achieved)
The radio elements must have the radio frequency circuitry shielded. Physical components and tuning capacitor(s) may be located external to the shield, but must be on the module assembly.	Yes, our modules are all shielded circuits, which are on module components
The module must have buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements with any type of input signal.	All modules have buffered modulation data input, which meets the requirements of Part 15
The module must contain power supply regulation on the module.	All modules have power supply
The module must contain a permanently attached antenna, or contain a unique antenna connector, and be marketed and operated only with specific antenna(s), per §§ 15.203, 15.204(b), 15.204(c), 15.212(a), 2.929(b).	All modules contain a permanent antenna, which we achieve by wiring and welding
The module must demonstrate compliance in a stand-alone configuration.	Our modules are supported independently in configuration to prove compliance
The module must be labeled with its permanently affixed FCC ID label, or use an electronic display (see KDB Publication 784748).	Yes, each of our modules has a label printed on the shield
The module must comply with all specific rules applicable to the transmitter, including all the conditions provided in the integration instructions by the grantee.	Yes, all modules comply with all specific rules applicable to launch, including all conditions of the transferee in integration

The module must comply with RF exposure requirements	Yes, all modules meet RF exposure requirements
--	--

### Integration Instructions for host product manufacturers

The following items are submitted in support of application for Modular Transmitter FCC ID as noted above as required by the FCC KDB 996369 D03 OEM Manual v01.

These items are provided as integration instructions for host product manufacturers (e.g., OEM instruction manual) to use when integrating a module in a host product.

Any requirements that are not applicable to the Module are as indicated below.

Summary of requirements and Checklist. Refer to the KDB for description of the complete requirements;

KDB Ref Sect	Requirements of KDB 996369 D03	User Manual Page Number reference
2.2	List of applicable FCC rules	31
2.3	Summarize the specific operational use conditions	1
2.4	Limited module procedures	31
2.5	Trace antenna designs	31
2.6	RF exposure considerations	31
2.7	Antennas	31
2.8	Label and compliance information	31
2.9	Information on test modes and additional testing requirements	31
2.10	Additional testing, Part 15 Subpart B disclaimer	31
