Modular Checklist/Information

For Modular Approval, the module shall meet all the requirements listed below. Please check (☑) if the module complies with the stated requirement.

- The modular transmitter must have its own shielding.
- The modular transmitter must have buffered modulation/data inputs.
- The modular transmitter must have its own power supply regulation.
- The modular transmitter must comply with the antenna requirements of section 15.203 and 15.204(c).
- The modular transmitter must be tested in a stand-alone configuration.
- The modular transmitter must be labeled with its own FCC ID number.
- The modular transmitter must comply with any specific rule or operating requirements applicable to the transmitter and the manufacturer must provide adequate instruction along with the module to explain any such requirements.
- The modular transmitter must comply with any applicable RF exposure requirements.

If a module(s) does NOT meet one or more of the above listed requirements, the applicant may request Limited Modular Approval (LMA). For LMA, please state details about why the above requirement(s) could not be met; and state how control of the end product, into which the module will be installed, will be maintained by the applicant / manufacturer, such that full compliance of the end product is always ensured:
