

User manual

24/7 LIFE MGNTC WRLSCHRGR (EWL-23160-A)

Instructions for use:

EWL-23160-A supports wireless charging function, in line with the Qi wireless charging standard: achieve moment distance radio energy transmission through magnetic induction, and any electronic device that meets the Qi standard can be charged using the EWL-23160-A wireless charger; When using the QC2.0 standard, the wireless charger supports 15W load; Overcharge protection, overvoltage protection (12V) and overcurrent protection (2A);

Installation:

1. Connect the USB-C at the other end of the wireless charging data cable to the power supply;
2. Just put the Qi-compatible electronic device on the charging pad, and it will charge the device immediately.

Note: All devices must have wireless charging capability

FCC Statement

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

The device must not be co-located or operating in conjunction with any other antenna or transmitter.

Warning: This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions : (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

User manual

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
