

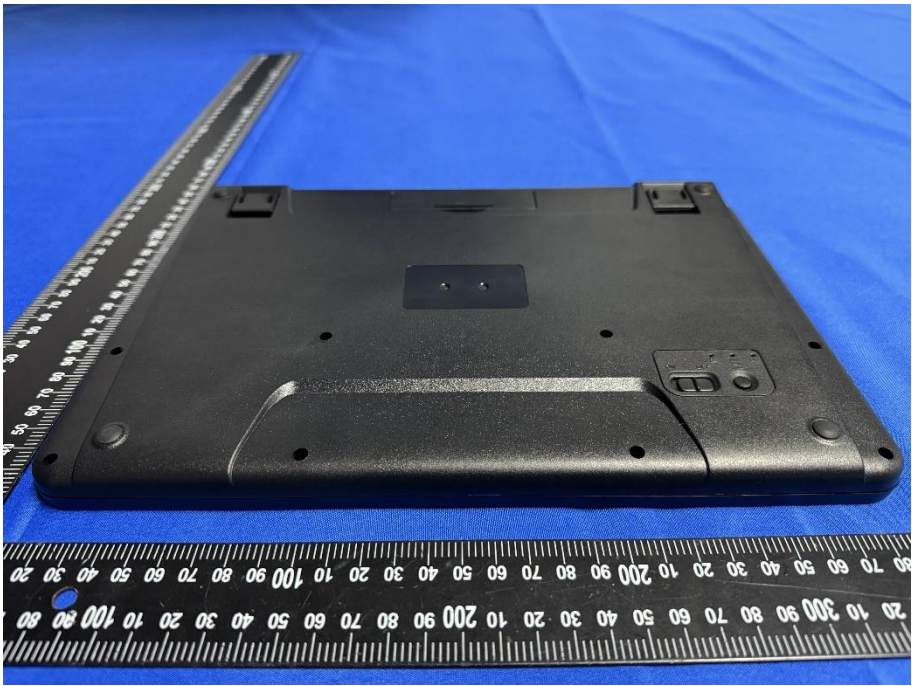

EXHIBIT 2 - EUT EXTERNAL PHOTOGRAPHS

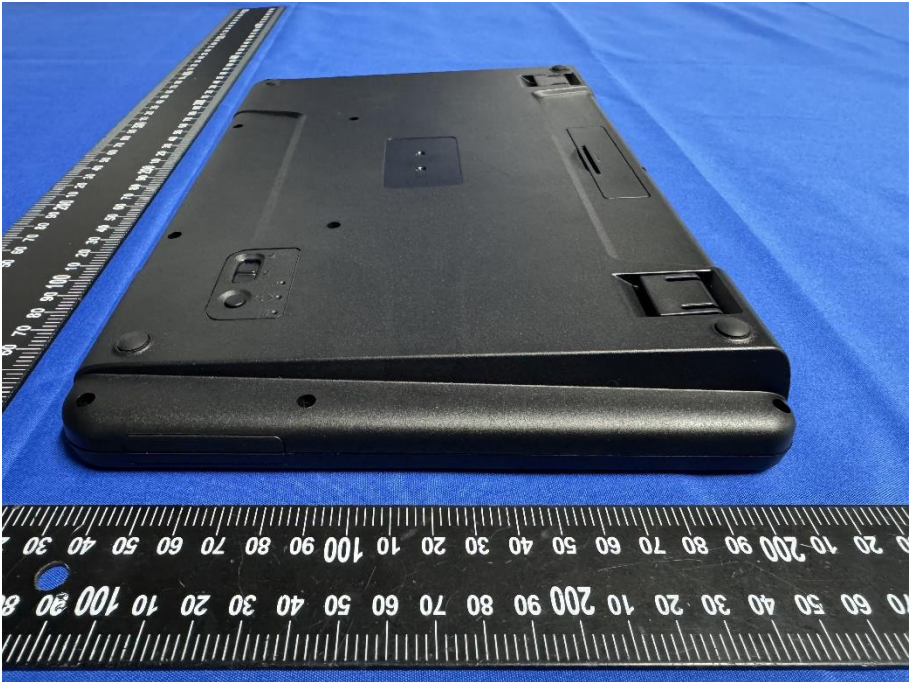

EUT View 1

EUT View 2

EUT View 3	 A photograph showing the back of a black electronic device, likely a tablet or smartphone, lying flat on a blue fabric surface. A metal ruler is placed horizontally below the device, showing measurements in millimeters and centimeters. The device has a central square cutout, several small circular holes, and a small rectangular port on the right side. The ruler is positioned such that the device's width is approximately 100 mm.
EUT View 4	 A photograph showing the side of the same black electronic device, lying flat on a blue fabric surface. A metal ruler is placed horizontally below the device, showing measurements in millimeters and centimeters. The device has a central square cutout, several small circular holes, and a small rectangular port on the right side. The ruler is positioned such that the device's width is approximately 100 mm.

EUT View 5	 A photograph showing the back of a black electronic device, likely a mobile phone, lying flat on a blue surface. A black ruler with white markings is placed horizontally below the device. The device has a central rectangular area, possibly a camera or sensor, and two small circular features on the left side. The ruler shows measurements in centimeters, with markings from 0 to 100 visible.
EUT View 6	 A photograph showing the back of a black electronic device, similar to the one in View 5, lying flat on a blue surface. A black ruler with white markings is placed horizontally below the device. The device has a central rectangular area, possibly a camera or sensor, and two small circular features on the left side. The ruler shows measurements in centimeters, with markings from 0 to 100 visible.
