Modular Transmitter Approval Request

Federal Communications Commission
 Equipment Authorization Branch
 7435 Oakland Mills Road
 Columbia, MD 21046

Company name: FN-LINK TECHNOLOGY LIMITED
FCC ID: 2AATL-K265B-UU

Gentlemen,

In accordance with 47CFR 15.212 Modular Transmitters and KDB 996369 D01 'Module Certification Guide v04'. FCC ID **2AATL-K265B-UU** has been examined against the following requirements.

Items to be covered by Single modular transmitters.

Requirement per 15.212 and KDB 996369 D01 'Modular Certification Guide v04	Y/N	Comments/ Explanation from Grantee (Explain why product complies/how it is achieved)
1. The radio elements must have the radio frequency circuitry shielded. Physical components and tuning capacitor(s) may be located external to the shield, but must be on the module assembly	YES	Module with shielding cover
2. The module must have buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements with any type of input signal	YES	Modular transmitters have buffered modulation/data input circuits
3. The module must contain power supply regulation on the module	YES	Modular transmitters come with power regulators.
4. The module must contain a permanently attached antenna, or contain a unique antenna connector, and be marketed and operated only with specific antenna(s), per Sections 15.203, 15.204(b), 15.204(c), 15.212(a), 2.929(b)	YES	The antenna is permanently connected to the modular transmitter.
5. The module must demonstrate compliance in a stand-alone configuration	YES	Modular transmitters are tested in independent configurations,
6. The module must be labelled with its permanently affixed FCC ID label, or use an electronic display (See KDB Publication 784748 about labelling requirements)	YES	Modular transmitters must be equipped with permanent labels.
7. The module must comply with all specific rules applicable to the transmitter including all the conditions provided in the integration instructions by the grantee	YES	Modular transmitters comply with any specific rules or operational requirements typically applicable to complete transmitters, please refer to the transmitter manual for details.
8. The module must comply with RF exposure requirements	YES	Modular transmitters meet any applicable RF exposure requirements in their final configuration.

Items to be covered by Split modular transmitters.

A limited modular approval (LMA) may be granted for single or split modular transmitters that comply partially with requirements above.
