SRT-2000-6	6	822-1349-001	822-1349-3xx	822-1349-4xx

The **Standard** part numbers are intended for airlines installing systems by STC or systems to be certified on Boeing Commercial Aircraft Group (BCAG) aircraft. These installations track installed software by Service Bulletin.

The **Douglas** and **Airbus** part numbers are intended for equipment to be certified and aircraft produced by the Douglas Products Division (DPD) of Boeing, and by Airbus; respectively. These companies require the top-level part number to reflect the installed software revision. The initial release is anticipated to be –301 and –401, respectively.

The units tested for the purposes of this report were engineering units representative of production configurations.
