Subject: Use of LE910-SVG documentation and FCC reports

Dear Sir or Madam:

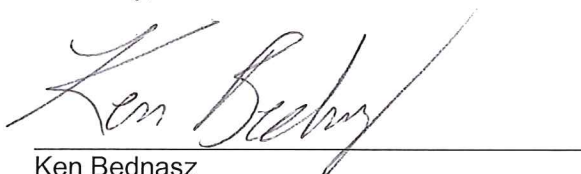

Telit authorizes integrator/customer Digital Security Controls (DSC) to use the LE910-SVG construction documentation (schematics, BOM, Block diagrams, etc.) and the FCC and ISED reports for FCC and ISED certification of their LT9080 Cellular Alarm Communicators.

DSC may use MPE, part 15, 22, 24, ISED test reports along with all necessary documentation pertinent to Telit radio module LE910-SVG and is authorized to use the company name "Telit", product name "LE910-SVG" solely for the certification process of DSC model LT9080 which has the Telit LE910-SVG embedded.

The Test Reports supplied by Telit to the FCC and ISED for our submission for grant are still representative of LE910-SVG manufactured today.

If you have any questions or concerns feel free to contact me.

Sincerely,

Ken Bednasz
Vice President of Application Engineering
