FCC Statement:

- The device complies with the FCC Part 18 rules.

FCC Radiation Exposure Statement:

- This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

10W Magnet Snap Wireless Charger Mount Suction Cup Base

Introduction

Quickly mount and unmount your magnet compatible wireless charging device while on the road. Wirelessly charges compatible smartphones with a decorate rainbow LED light for easy viewing at night. The telescopic arm extends up to 6" and suctions to windshields or dashboards in your vehicle.

Features

- Magnetic wireless charging function for quick and easy charging
- LED-RGB lighting for easy viewing at night
- Adjustable telescopic support with sucker installation method for versatile mounting options, extends up to 6"
- 360 degrees rotation
- Compact and lightweight design

Package Contents

1(One) 10W Magnet Snap Wireless Charger Mount,
1(One) USB-C to USB-C Power Cable 3.28ft(100cm)
1(One) User Manual

Specifications

- Input Voltage/Current: 9V/2A, 5V/3A, 12V/1.5A
- Rated Output Power: 5W/7.5W/10W
- Working Frequency: 110.5KHz-205KHz
- Product Size: 2.56 * 3.15 inches
- Net Weight: 2.26 ounces
- Charging Cable: 39.37 inches USB-C
- Material: ABS

GETTING TO KNOW YOUR PRODUCT

Installation Method

- Attach the suction cup to a clean and smooth surface on your car dashboard or windshield.
- Extend the telescopic support to adjust the position and angle of the charger mount according to your preference.
- Place your phone on the magnetic surface of the charger mount to secure it in place for wireless charging.

Operation

Connect the wireless charger to a 5V/9V/12V adapter using the provided USB-C fast charging cable. Place your mobile phone within the wireless charging area of the mount to initiate charging.

Note: Requires power via included cable and a USB-C car charger (not Included). For maximum 10W charging, an 18W QC 3.0 or PD USB car charger is required (not included). Please check your respective device's specification for maximum charging speed capability.

Tips

- Do not place metal debris or magnetic cards on the charging board, as it may cause overheating. Slight heating during charging is normal.
- Keep the charger away from fire sources or corrosive environments.
- Avoid obstructing the wireless charging area with metal objects or thick phone cases.
- Do not attempt to disassemble or modify the charger mount.
- Keep the charger mount away from water and moisture to prevent damage.
- Use caution when driving and avoid adjusting the charger mount while the vehicle is in motion.

Safety and Care Instructions:

Read all the instructions before using the product and them store them for future reference. Failure to follow these safety instructions, could lead to fire, electrical shock, personal injury, property damage, or damage to the product. This product contains a non-replaceable rechargeable lithium-ion battery. When discarding, follow your local / state guidelines.

- Do not expose to rain, moisture, or other liquid. Do not use near water such as swimming pools, bathtubs, or sinks. If it becomes wet, immediately unplug the product from a power source.
- Do not handle the unit, USB cord or wall charger with wet hands.
- Do not charge, or use, the product if it has been submerged in water, or if water has got inside the product.
- Do not expose to heat sources, the sun, or leave in a hot vehicle.
- Do not dispose of in a fire.
- Do not expose the product to extremely high or low temperatures.
- Use this product in a location with a temperature of 32°F - 95°F. Prolonged exposure to extreme heat or cold reduces battery longevity. Exposure to fire or temperatures above 170°F could cause serious damage and explosion.
- Do not disassemble, there are no serviceable parts inside. Do not drop.
- Do not use if damaged or modified or if you see any bulging, swelling, leakage or other abnormality.
- Never insert objects other than the specified cables into the product. Damaged or modified batteries may exhibit unpredictable behavior resulting in fire, explosion or risk of injury.
- Do not modify or try to use for a non-intended purpose.
- Do not use the power bank more than its output rating. Overload outputs above rating may result in a risk of fire or injury.
- Do not place anywhere where the product would become crushed or punctured.
- Place the charger on a flat, sturdy surface during charging. Charge in a well-ventilated area and make sure it is not covered with any material. Power banks generate heat when charging, and the power bank may temporarily stop charging if it gets too hot.
- Charge using the correct wall charger, and make sure that the charger is inserted all the way into the electrical outlet.
- Disconnect the charger once the product is fully charged.
- This product is not a toy. Keep out of reach of children or those that require supervision.
- Do not use abrasive cleaning solvents to clean the unit.

Note: Lithium-ion batteries will self-discharge over time. To ensure battery life, do not store the product in an uncharged state for a length of time. If left in a discharged state for too long a lithium-ion battery will no longer have the ability to be recharged.
