>I have reviewed the above referenced Class II Permissive change TCB
>application and find that the following items need to be addressed
>before the review can be continued:

>

>1. Please submit a Class II Permissive Change cover letter that
>describes the changes made to this device in a non-confidential
>manner.

ANS 1 Class 2 change description letter attached

>

>2. The Confidentiality request for this Class II Permissive Change
>requests that the Operational Description document be held
>confidential; however there are no exhibits that are called or
>titled as Operational Description (there is a document titled iAPx
>Class 2 FCC Amendment.doc). Please clarify this documentation or
>revise the Confidentiality letter to be consistent

ANS2 Modified confidentiality request attached

>

>3. Please submit an internal photograph showing a comparison of the
>originally approved device and the changed device. If this needs to
>be held confidential then please amend the Confidentiality letter to
>include this exhibit.

ANS 3 Photos attached

>

>4. The test report documents the TX Software gain Settings required
>to obtain compliance. Please confirm that these settings are not
>installer or user changeable.

ANS 4 These are test software settings. The program (PTT) is not
available to final users. The correct settings, once determined, are
written into product firmware and cannot be changed by the user.

>

>5. Please submit a Letter of Authorization with this application to
>allow for this application to be filed by you as an agent.

ANS 5 letter attached.

>
>The items indicated above must be submitted before processing can
>continue on the above referenced application. Failure to provide the
>requested information within 30 days of the original e-mail date may
>result in application dismissal and forfeiture of the filing fee.
>Also, please note that partial responses increase processing time
