

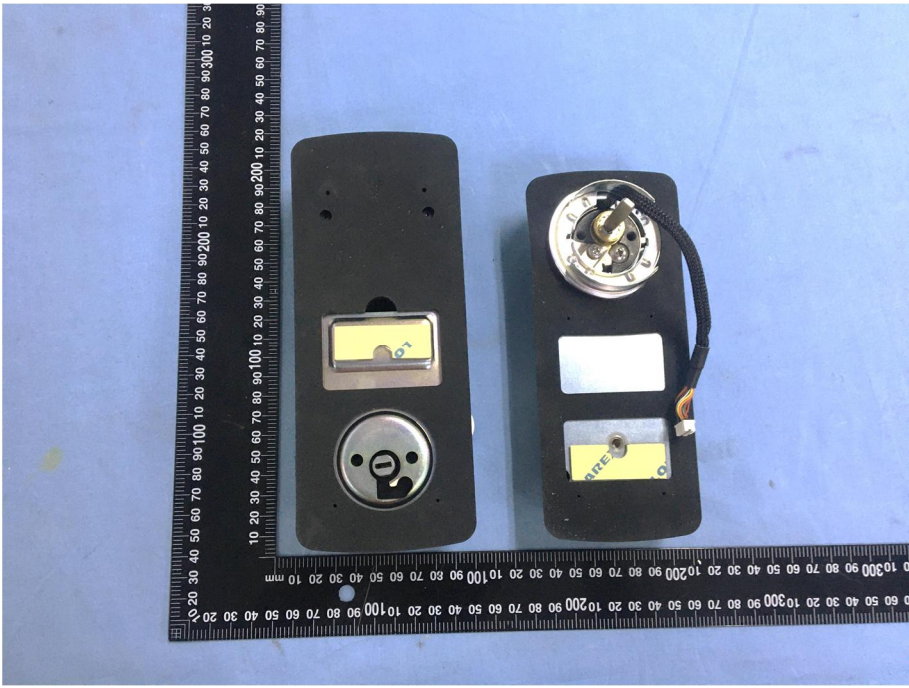

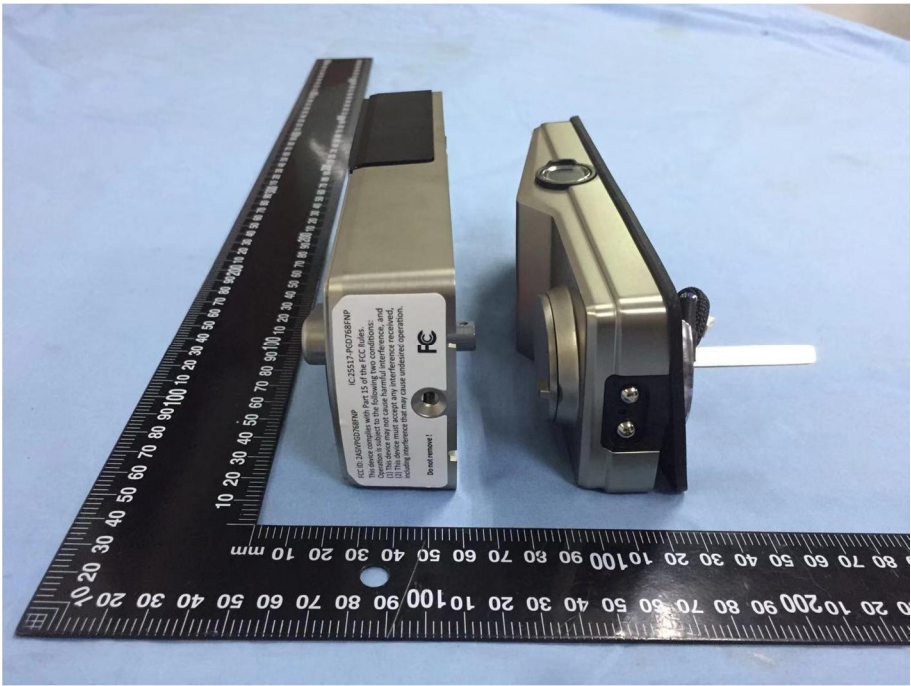

EXHIBIT 2 - EUT EXTERNAL PHOTOGRAPHS

EUT View 1	 This photograph shows the front of a silver and black Lockly electronic door lock. The device is positioned vertically next to a black ruler with white markings. Two white labels are attached to the lock: one at the top with 'IMPORTANT TIPS' and another below it with a 'NOTE'. To the right of the lock, a set of keys and a small metal component are laid out. The background is a solid blue surface.
EUT View 2	 This photograph shows the same Lockly electronic door lock from a slightly different perspective, focusing more on the side profile. It is placed next to the same ruler on the blue background. The labels and keys are also visible in this view.

EUT View 3	 Two black rectangular components are shown side-by-side on a blue surface. The component on the left has a circular metallic base with a stylized 'e' logo and a yellow rectangular component above it. The component on the right has a circular metallic base with a complex internal structure and a yellow rectangular component below it. A ruler is placed horizontally below the components, showing measurements in millimeters.
EUT View 4	 Two silver-colored components are shown side-by-side on a blue surface. The component on the left is a rectangular block with a label that reads '正常样机', 'ID: 82300248', and 'DSK: 10309'. The component on the right is a similar block with a complex internal structure and a black cable attached to it. A ruler is placed horizontally below the components, showing measurements in millimeters.
